

Housing and Health Services Coordination Council (HHSCC) Meeting Transcript*

***10:00 a.m.
April 15, 2026***

***State Insurance Building Annex, Room 116
221 E. 11th Street, Austin, TX 78701***

**** This document is an approximate transcription of a recording of the meeting and is not a certified transcription of the meeting. As such, it may contain errors.***

Council Members: Bobby Wilkinson, Chair, TDHCA
Doni Green, Vice Chair
Brittany Hinton, HHSC
Claire Irwin, HHSC
Veronica Neville, HHSC
Blade Berkman, DSHS
Suzanne Barnard, TDA
Donna Klaeger
Joycesarah McCabe
Jennifer Gonzalez, Ph.D
Diana Delaunay
Barrett Reynolds
Kenneth Darden

Staff Support: Jeremy Stremler, TDHCA

1 **00:00:01 Bobby Wilkinson**

2 I will call to order the Housing and Health Services Coordination Council I'm Bobby

3 Wilkinson Executive Director of TDHCA, do we have anyone on the phone?

4 **00:00:12 Bobby Wilkinson**

5 Barrett are you on the phone?

6 **00:00:21 Veronica Neville**

7 Hi this is Veronica Neville with HHSC.

8 **00:00:24 Bobby Wilkinson**

9 And let's do let's do role who else is here we got we got blade.

10 **00:00:37 Bobby Wilkinson**

11 Mike is on the phone.

12 **00:00:44 Bobby Wilkinson**

13 Diana.

14 **00:00:45 Diana Delauney**

15 Diana, right here good morning, everyone.

16 **00:00:51 Bobby Wilkinson**

17 Brittany Hinton.

18 **00:00:53 Brittany Hinton**

19 Yes, I'm here OK.

20 **00:00:57 Bobby Wilkinson**

21 Claire.

22 **00:01:00 Bobby Wilkinson**

23 Suzanne?

24 **00:01:01 Jeremy Stremmer**

25 She's going to be late she said.

26 **00:01:08 Michael Wilt**

1 Yeah, I'm on the phone Bobby thanks great.

2 **00:01:13 Bobby Wilkinson**

3 And once again Barrett are you on?

4 **00:01:17 Bobby Wilkinson**

5 Ok, so no quorum so we'll skip.

6 **00:01:22 Bobby Wilkinson**

7 Item one and move on to item two Bill's going to update us on the section 811 project

8 rental assistance program.

9 **00:01:31 Bill Cranor**

10 Bill Cranor I'm the director of 811 as of today we have 618 people housed under the 811

11 program.

12 **00:01:39 Bill Cranor**

13 Now what it's been for a while we are.

14 **00:01:44 Bill Cranor**

15 We are just finishing up the 2026 QAP which will bring in about 190 more units and 113 of

16 those I believe will be existing developments which means as people move out of those

17 units we could house people with them.

18 **00:01:59 Bill Cranor**

19 We also have a '25 QAP bringing in 80 units next fall that will be vacant properties that we

20 can just move people in immediately and then the fall after that we'll have about 70 units

21 from the '26 QAP we can do the same thing when those two happen we expect the

22 numbers to rise greatly and then we're going to be in the '27 QAP we also just signed.

23 **00:02:26 Bill Cranor**

24 Bobby signed this a week ago 2 weeks ago for \$8,000,000.00 more of funding for our

25 program which is about 110 units that we would house and we have put a bid in for the

26 2026 NOFO for another \$10,000,000 which we think will be about 128 units.

27 **00:02:48 Bill Cranor**

28 So that's where things generally stand so HUD has hinted that there will be more money

29 coming.

1 **00:02:55 Bill Cranor**

2 HUD also said we were going to have a meeting in person in November, and I haven't heard
3 anything about that so that turned out to be not true probably so we'll see about the other
4 money coming.

5 **00:03:08 Bobby Wilkinson**

6 What is that get us to total with the 8 not the 10 yet but?

7 **00:03:11 Bill Cranor**

8 With the 8 let's see 26 ready to \$40,000,000 I believe.

9 **00:03:21 Bobby Wilkinson**

10 Going to quickly be bigger than our Housing Choice voucher program yeah you have you
11 kind of be smug to Andre now in the hallway so right.

12 **00:03:24 Bill Cranor**

13 We're taking over.

14 **00:03:32 Bill Cranor**

15 Yeah.

16 00:03:35 Bobby Wilkinson

17 And he mentioned the QAP stuff and so basically, we just sort of forced the developers for
18 tax credit developments to set aside a certain number of units for 811 and when we weren't
19 getting new money we stopped for a while and we threw it back in they like they used to
20 kind of fight us on it and I think they just they accept it now.

21 **00:03:55 Bill Cranor**

22 One thing we did was originally we had a minimum of 10 units of everybody, and so Cody
23 changed it to 5%.

24 **00:03:59 Bobby Wilkinson**

25 Right.

26 **00:04:04 Bill Cranor**

27 Which is in a lot of ways more equitable for the developers because if you have a 30-unit
28 property right or a 200 unit property you're still giving us 10 units.

1 **00:04:08 Bobby Wilkinson**

2 It's just right.

3 **00:04:15 Bill Cranor**

4 It's lowered our overall numbers per property to where we're more averaging about 6 but

5 honestly that's what we're generally housing for what we even if they give us 10 we only

6 generally house 6 and also, they can come back to us with more money we can put more

7 units at that property.

8 **00:04:25 Bobby Wilkinson**

9 Sure.

10 **00:04:34 Bill Cranor**

11 So that's hasn't hindered us but we've also had more people or as you say less people

12 fighting us so you've actually had more properties come in with smaller number of units so

13 we haven't really seen a drop off in the number of units per QAP cycle just they're more

14 dispersed which actually we kind of like it gives more choice.

15 **00:04:57 Bobby Wilkinson**

16 We'll keep it there as long as we as we need to keep getting more units to.

17 **00:05:01 Bill Cranor**

18 I think we need to be in there if we're assuming we're going to get to '26 funds which I'm not

19 assuming, Jeremy 's more optimistic that's the \$10,000,000 yeah we'll probably need to be

20 in there you know a couple more years but as long as more money is keeps coming like

21 they say they're trying to do then.

22 **00:05:07 Bobby Wilkinson**

23 OK that's the \$10,000,000 OK.

24 **00:05:19 Bill Cranor**

25 I would expect that we would be there for quite a while.

26 **00:05:22 Bobby Wilkinson**

27 Oh, and just you know let us know if we need to bump that percentage up.

28 **00:05:26 Bill Cranor**

29 Right now, I'm happy.

1 **00:05:27 Bobby Wilkinson**

2 With it OK.

3 **00:05:30 Bobby Wilkinson**

4 The other thing we should talk about is that the different special populations that 811
5 serves were really heavy into the those exiting mental health institutions right yeah we were
6 trying to rebalance to some of the other how is that working.

7 **00:05:41 Bill Cranor**

8 People serious mental illness yes.

9 **00:05:46 Bill Cranor**

10 It's working it's about where it was the last time we talked because it used to be 93% and
11 now we're closer to 90% so we've definitely made improvements there but the biggest
12 chance to improve.

13 **00:06:00 Bill Cranor**

14 We put in a preference for those other underserved populations you think that youth exiting
15 foster care, people exiting intermediate care facilities a preference for them but where that
16 really takes in.

17 **00:06:11 Bill Cranor**

18 In account is with new properties and especially with new construction properties where
19 we can say hey we have this property coming online and we would like you to give us
20 applicants as quickly as possible because those three populations.

21 **00:06:28 Bill Cranor**

22 Like if you're exiting foster care, you're exiting foster care you can't wait around for us to
23 have the unit become vacant.

24 **00:06:34 Bobby Wilkinson**

25 right.

26 **00:06:35 Bill Cranor**

27 So that they kind of need a set date when they can move in for them to work out something
28 either in between or stay or whatever so that really helps those populations more, I would
29 expect us to do a much better job of balancing those.

1 **00:06:49 Bill Cranor**

2 The other thing about the preference that we put in is that anybody that was on the wait list

3 before that is not subject to it so most of our existing prop.

4 **00:06:57 Bill Cranor**

5 Still have people with serious mental illness greatly outnumber.

6 **00:07:04 Bill Cranor**

7 We periodically update the wait list and say once a year at least and reach out to people

8 that are over a certain number of years old usually like 3 and say are you still interested in if

9 we don't hear back we remove them from the wait list and so that helps get those numbers

10 back to the people in those other target populations.

11 **00:07:24 Bobby Wilkinson**

12 It's youth exiting foster care that also have a disability right yes OK.

13 **00:07:28 Bill Cranor**

14 Yes, it's not just you everybody has a disability right that's one of the tenants so.

15 **00:07:35 Bobby Wilkinson**

16 Yeah, just making sure you weren't directly competing with my FYI no yeah OK great.

17 **00:07:42 Bobby Wilkinson**

18 Any more questions for bill on 811?

19 **00:07:45 Bobby Wilkinson**

20 Alright.

21 **00:07:47 Bobby Wilkinson**

22 Naomi 's going to talk to us about HOME-ARP.

23 **00:07:49 Naomi Cantu**

24 I do have remarks prepared but I have asked Rosy to go next that's possible because I have

25 to go check.

26 **00:07:55 Naomi Cantu**

27 On one thing OK.

1 **00:07:56 Bobby Wilkinson**

2 Yeah, yeah sure we'll skip over to update on ESG Rosie.

3 **00:08:02 Rosy Falcon**

4 Hey good morning so I've got just a few updates for us today our 2026 funding we just
5 awarded 51 sub recipients \$9,808,142.

6 **00:08:16 Rosy Falcon**

7 Over half of those sub recipients are going to be providing rental assistance but overall all
8 51 the goal for the 2026 funding is to exit people with permanent housing for 62% of those
9 that we provide any type of service so that's including emergency shelter rapid rehousing
10 homelessness prevention or anything.

11 **00:08:38 Rosy Falcon**

12 That they may need any supports they may need and so that is an increased goal from our
13 prior year so we're very excited about that.

14 **00:08:46 Rosy Falcon**

15 And another update for 2026 is we just received an additional amount for Travis County
16 we've received \$157,000. To be redistributed in only Travis County and so that happens
17 because when any municipality or county does not accept their HUD allocation then it rolls
18 up to the state.

19 **00:09:14 Rosy Falcon**

20 We're talking about how we're going to redistribute that but that is your more
21 geographically for Travis County only for the first time after that if those that are eligible
22 within Travis County do not or cannot take the additional money then we can open it up to
23 the remainder but for now it is geographically restricted to that because that is the
24 allocation for it.

25 **00:09:35 Rosy Falcon**

26 Moving forward into now thinking about all of the rule changes and regulations that are
27 affecting the homelessness programs one of the things to look forward to as we will be
28 hosting some round tables probably early November to talk about the HOTMA updates that
29 take effect on January 1, 2027.

30 **00:09:56 Rosy Falcon**

1 Most especially for this group of most note that we will be discussing and gathering
2 information on is what type of safe harbors make more sense for our sub recipients to for
3 us to adopt for our sub recipients in order to make it easier and a little bit less cumbersome
4 for participants to obtain health.

5 **00:10:15 Rosy Falcon**

6 Especially if they've already been determined eligible by another participating program
7 then by us potentially adopting the safe harbor options of your Hotmail we would make it
8 less burdensome for them to get systems through our.

9 00:10:33 Rosy Falcon

10 HOTMA, I've got to look at that acronym that it is the Housing Opportunity Through
11 Modernization act of 2016 and So what that does for our ESG area is it changes the
12 documentation process and the types of benefits that are used to determine assets and
13 income.

14 **00:10:53 Rosy Falcon**

15 But really really most importantly is adds this additional safe harbor options for people to
16 be able to use let's say there's their TANF approved already so they come to one of our ESG
17 providers we don't have to redo income to make sure that they're at or below 30% AMI we
18 can take the TANF income determination and just provide them services but that again
19 comes into effect January first.

20 **00:11:23 Rosy Falcon**

21 So, it has been moved quite a bit so that is why we have held off but because the change
22 usually happens right before the implementation deadline but we still like to hold some
23 round tables and preparation for it and also gives us some good idea of what practically
24 makes more sense on the ground instead of us kind of looking at all the options.

25 **00:11:47 Rosy Falcon**

26 And those were all my prepared remarks today.

27 **00:11:50 Bobby Wilkinson**

28 Rosy, is it weird that Travis County didn't take the money?

29 00:11:53 Rosy Falcon

30 It is that was very surprising it's happened before for other counties but never for Travis
31 County specially since they have a lot of projects that they're funding and a lot of initiatives

1 but it's for us it's good we always have a lot of need for money and right now we've
2 reallocated all of our prior funding so all we have right now as the state is a little bit maybe
3 less than 100,000 of '24 money.

4 **00:12:03 Bobby Wilkinson**

5 Right.

6 **00:12:21 Rosy Falcon**

7 And then our current grant which is scheduled to be fully utilized or at least 90% of it to be
8 utilized within its year so extra money helps us and we'll still keep it in Travis County for as
9 much as we can.

10 **00:12:34 Rosy Falcon**

11 That CoC was highly competitive this year so no funds from that CoC went to the statewide
12 so I'm sure we will use most of it if not all of it within.

13 **00:12:46 Bobby Wilkinson**

14 Do you have to go back to the Board for that or can you just allocate.

15 **00:12:49 Rosy Falcon**

16 I don't know I think we well we might have to update the OYAP right?

17 **00:12:53 Jeremy Stremmer**

18 Minor though it wouldn't go to the Board.

19 **00:12:58 Jeremy Stremmer**

20 It's a minor amendment to add funds yeah the award need to go to the board.

21 **00:13:01 Rosy Falcon**

22 To the award will still go to the board.

23 **00:13:06 Bobby Wilkinson**

24 Anymore questions for Rosie on ESG.

25 **00:13:10 Bobby Wilkinson**

26 Go back to Naomi for HOME-ARP.

27 **00:13:12 Naomi Cantu**

1 Thank you for your discretion I realized one number to assume that this group probably
2 would be interested in so at HOME American Rescue Plan was issued \$132,000,000 from
3 HUD in one time funding in 2021 we have programmed the funds into rental development
4 and also non congregate Shelter development and then a little bit of funding in nonprofit
5 capacity building operating funding.

6 **00:13:45 Naomi Cantu**

7 Populations with VAWA at risk of homelessness housing and stability and our rental
8 activity is wrapping up so we were able to award \$53.1 million to 12 developments 10 of
9 which are already open.

10 **00:14:06 Naomi Cantu**

11 So, we have 2 that are still under construction we have a total of 331 units but 261 are QPs
12 that's qualified populations as act was I focused on talking about earlier and 70 for low
13 income households so that's just low income to help support the development the
14 qualified population is only.

15 **00:14:37 Naomi Cantu**

16 Pay 30% of their income towards rent so they're very hard to underwrite because many of
17 them don't have sufficient income to pay the full amount of rent to to support the
18 development and I wanted to break those out for this group.

19 **00:14:53 Naomi Cantu**

20 Because that I think is the focus of the populations that we're looking at we're also working
21 on recording.

22 **00:15:05 Naomi Cantu**

23 Non congregate shelter we have two awards made.

24 **00:15:10 Naomi Cantu**

25 One for approximately \$44.8 million in Austin and then another one for \$8.2 million in Kent
26 County that's a total of 350 units.

27 **00:15:28 Naomi Cantu**

28 And we are working towards getting those under construction so non congregate shelter is
29 different than regular traditional shelter which would be congregate shelter which would
30 be a bunch of beds in one room and then non congregate means that they're not together
31 so they all have individual rooms and sanitary facilities.

1 **00:15:55 Naomi Cantu**

2 Any question oh we have one more application for non congregate shelter in consideration

3 that's for \$7,000,000 in San Antonio.

4 **00:16:09 Bobby Wilkinson**

5 Are we going to make our deadline.

6 **00:16:11 Naomi Cantu**

7 I hope so we have a I call this the slow burn.

8 **00:16:18 Naomi Cantu**

9 COVID-19 funds we have until 2030 which is a long time.

10 **00:16:22 Bobby Wilkinson**

11 September one right not not December.

12 **00:16:24 Naomi Cantu**

13 September 1, 2030 and taking some time to get started and so we are constantly working

14 with them to to get that underway that said since they're non profits and working on that

15 operating funding which is the most challenging part of the program.

16 **00:16:47 Naomi Cantu**

17 Many of them have been very creative in finding ways to get that operating funding so we're

18 looking at coordination with the VA or we're looking at coordination with local

19 organizations that fund often mental health services and then we have to work on like well

20 you can't only accept people with mental health issues you need to also open it up but

21 people with mental health issues you can use that operating funding so we've seen a lot of

22 creative operating come through.

23 **00:17:18 Bobby Wilkinson**

24 I thought for sure would be under construction by now the Austin one.

25 **00:17:24 Bobby Wilkinson**

26 Thank you for taking on that burden.

27 **00:17:28 Bobby Wilkinson**

28 Anymore questions about about HOME-ARP.

1 **00:17:34 Bobby Wilkinson**

2 Alright well to to item 5 talking about legislative priorities with Matthew Levitt.

3 **00:17:40 Matthew Lovitt**

4 Good morning good afternoon yes good morning everyone my name is Matthew for those
5 who I haven't met I serve as the senior legislative affairs advisor here at tdhca and the
6 external affairs division again thank you for the opportunity to be here and share a little bit
7 about our strategic priorities for lack of better terms.

8 **00:17:56 Matthew Lovitt**

9 As it relates to the upcoming 90th legislative session.

10 **00:18:01 Matthew Lovitt**

11 So, I will be using this PowerPoint slide to guide my conversation a little bit extra I
12 understand but just in the event that I do reference slide numbers I'll be following this slide
13 slides provided to you in advance so first things first what I'm going to plan to do today is let
14 me back up for a second so I'm sure everybody in this room is aware there are certain
15 limitations on the ways.

16 **00:18:21 Matthew Lovitt**

17 State agencies including TDHCA can engage the legislature as it relates to any kind of
18 priorities that we may have for example we're not allowed to advocate to go and and and
19 lobby for our particular bill or particular amount of money for a particular program that said
20 we can communicate our priorities to the legislature through our legislative appropriations
21 request and our strategic plan both of which will cover today as you can see on agenda
22 items one and two at the end of the conversation or presentation today I did reserve some
23 time for some questions and answer should you have any of course if you have questions
24 that arise as I'm going through the slide deck.

25 **00:18:54 Matthew Lovitt**

26 Don't hesitate to ask them you just raise your hand or just speak up well we'll try and
27 address them.

28 **00:18:59 Matthew Lovitt**

29 Fortunately, I might not have the answer maybe unfortunately I might not have the answer
30 but fortunately we do have some very knowledgeable people in this room as well to help
31 me should you have particular programmatic questions or anything related to the
32 programs that we will discuss today as it relates to the priorities that concern.

1 **00:19:14 Matthew Lovitt**

2 In this particular group.

3 **00:19:16 Matthew Lovitt**

4 So starting with our legislative appropriations request it would be impractical.

5 **00:19:20 Matthew Lovitt**

6 For me to provide a summary of the entire thing we would be here for several hours likely
7 and that will probably exceed your tolerance for listening to me.

8 **00:19:30 Matthew Lovitt**

9 So, I'm going to focus on programs that directly concern the mission of this particular
10 group as it relates to the increase increasing the efforts to offer service enriched housing in
11 the state of Texas for individuals with disabilities through increased coordination of course
12 with the mission of this particular group is so advancing to slide 5.

13 **00:19:49 Matthew Lovitt**

14 Of the slide deck how, I identified groups or programs excuse me that's it.

15 **00:19:56 Matthew Lovitt**

16 It's HHSCC's mission was pulled directly from the 26/27r biennial plan for this particular
17 group you can see listed there for those who are on the phone who may not have the slide
18 deck in front of them those programs are section 811, Section 8 specifically Section 8
19 project access, the home Investment Partnership program which is already alluded to.

20 **00:20:17 Matthew Lovitt**

21 Amy Young barrier removal, housing tax credit program, our homeless housing and service
22 program HHSP as well as our ESG program which is already discussed as well this
23 morning.

24 **00:20:29 Matthew Lovitt**

25 Going to the next slide slide 6 I've provided a biennial breakout of our funding requests for
26 these particular programs and you can see with the exception of home it's more or less flat
27 for all of our programs however the first five programs on that slide deck so section 811,
28 Section 8, HOME, ESG and our housing tax credit program these are federal programs so
29 largely outside the authority or jurisdiction of the state legislature I mean they do have to
30 approve our ability to spend the federal dollars but they necessarily can't like can't

1 necessarily pull the strings and how much federal money is coming to the program and
2 how much goes out.

3 **00:21:05 Matthew Lovitt**

4 So today we're going to focus on the last two the very far right side of that chart HHSP and
5 the Amy Young barrier removal program those are funded to a certain extent advancing to
6 the next slide slide 7 you can see a breakout of these two particular programs again that
7 you're a biennial or biennial chart at the bottom of the slide but on top I've provided a
8 method of financing breakout for these two particular programs and you can see it they're
9 fairly flat overall binding over via despite the required 3% reduction request that came from
10 the governor.

11 **00:21:43 Matthew Lovitt**

12 Office we were able to maintain funding for these particular programs through some it's
13 the shipping of method of finance so we took some some appropriate receipts in our back
14 filling that GR reduction that we were required to implement for the 28/29 by handing out
15 so you can see the differences there more or less flat.

16 **00:22:03 Matthew Lovitt**

17 If you do go up in 8 and and the Amy young barrier removal in our request for Amy young.

18 **00:22:08 Matthew Lovitt**

19 But like I said otherwise generally pretty flat moving to the second vehicle by which we can
20 communicate our priorities to the legislature our strategic plan going to focus specifically
21 on the redundancies and impediments list that is included in that strategic plan if you're
22 not familiar with the strategic plan or redundancies and impediments.

23 **00:22:28 Matthew Lovitt**

24 More or less each state agency is asked to produce a list of sections of statute.

25 **00:22:33 Matthew Lovitt**

26 That make us make it harder for us to do our job or make it more inefficient in how we do
27 our jobs so we identify these ways to to improve efficiency and efficacy and how we
28 administer the programs under our purview two of those redundancies in the impediments
29 that agency leadership identified was first to clarify TDHCA's role as a Public Housing
30 Authority.

31 **00:22:54 Matthew Lovitt**

1 At the top of §2306 in the government code there's like this is this is what TDHCA's role is in
2 the state it does not specifically dictate or indicate that we are to serve as a public Housing
3 Authority despite us doing so and that could create some problems as it relates to
4 accessing some federal funding.

5 **00:23:14 Matthew Lovitt**

6 In the administration of our Section 8 program especially as it relates to those special
7 vouchers like emergency housing vouchers that were distributed during the COVID-19
8 pandemic so we're requesting.

9 **00:23:27 Matthew Lovitt**

10 You know further clarification or the addition of that line item to the agency 's purpose
11 statement at the top of chapter 2306 or we're highlighting that necessarily requesting the
12 highlighting that as a potential opportunity to improve how the agency operates the second
13 one concerns this group specifically and this probably is not new information.

14 **00:23:46 Bobby Wilkinson**

15 Yeah yeah.

16 **00:23:46 Matthew Lovitt**

17 OK concerns this group specifically.

18 **00:23:54 Matthew Lovitt**

19 Relates to the disbanding of this particular group, for a couple of reasons we all love your
20 company love hearing about obviously that you guys are doing however this group could be
21 seen as duplicated with some of the other interagency workgroups that TDHCA is a
22 member of specifically the behavioral health advisory committee and the statewide
23 behavioral health coordinating committee.

24 **00:24:15 Matthew Lovitt**

25 We also serve in those groups, so it seems somewhat duplicative to have this group as well
26 especially on top of the fact that our funding for this group has been depleted and we've
27 achieved our statutorily required outcomes associated with this council.

28 **00:24:30 Matthew Lovitt**

29 We are highlighting the fact that perhaps we could save some time and some money by
30 just focusing our efforts on those other interagency groups that already exist to tackle the

1 problems addressed by this particular council like I said that information is provided in our
2 strategic plan.

3 00:24:49 Matthew Lovitt

4 The Plan is up on the agency website if you want to read more about that I can provide the
5 link to it.

6 **00:24:52 Jeremy Stremmler**

7 Yeah, I'll send everyone the link when I when I put up the transcript and meeting materials
8 for this meeting.

9 **00:25:00 Matthew Lovitt**

10 These documents are really long and really dull we've tried to make it pretty so it's at least
11 like visually engaging as well but be prepared to drink a cup of coffee prior to engaging in
12 the strategic plan.

13 **00:25:12 Matthew Lovitt**

14 That concludes my presentation happy to take any questions if there are any.

15 **00:25:23 Jeremy Stremmler**

16 I will say to Matthew's point right this group has done a lot of great work over the years like
17 for example the section 811 program would not exist without this council initially pushing
18 the agency to apply for those funds and create that program in in the state so.

19 **00:25:41 Jeremy Stremmler**

20 The group 's done a lot of really good stuff and you know really helped the state overall.

21 **00:25:47 Bobby Wilkinson**

22 It's not a done deal like yeah, we can make a suggestion you know and doesn't mean
23 anything 's going to happen at all probably you know if it doesn't it'll just be a sunset thing
24 and they'll look at it and maybe they'll just change.

25 **00:25:50 Jeremy Stremmler**

26 Yeah.

27 **00:26:00 Bobby Wilkinson**

28 At and in the meantime, we're still a group we'll still meet and if any council members have
29 ideas of you know future agenda items anything you want to talk about let Jeremy know and

1 we'll get something prepared for you if you want to present or or whatever and so so we can
2 we can still get stuff done we're happy, good conversations anyway anymore on the
3 legislative session from anyone.

4 **00:26:33 Bobby Wilkinson**

5 Public comment.

6 **00:26:35 Bobby Wilkinson**

7 We haven't had a public comment in a while.

8 **00:26:39 Bobby Wilkinson**

9 That was not on the phone, next meeting is to be determined, it will be here same place
10 same time time generally alright with that we're adjourned.
