

2010 Competitive Housing Tax Credit Site Demographic Characteristics as of December 8, 2009

Place Level - Sorted by Place

Instructions:

A site located outside the boundaries of a place (as designated by the 2000 U.S. Census) will use the Affordable Housing Need Score of the place whose boundary is closest to the development site.

If information for a specific place is not included in the table, or for any other questions relating to scoring for an application, submit questions in writing to Jason Burr via email at jason.burr@tdhca.state.tx.us.

Notes:

(1) These area designations may be updated when TRDO releases the 2009 areas eligible for funding or applicants may petition TDHCA to update the "Rural" designation of a place within a metropolitan statistical area by providing a letter from a local official. Such letter must clearly indicate that the place has an incorporated area boundary that touches the boundary of another place with a population of over 25,000. Such petitions must be submitted in writing to Jason Burr at jason.burr@tdhca.state.tx.us. To treat all applicants equitably, such communication must be provided to TDHCA prior to the commencement of the pre-application submission period for HTC applications. The results of such petitions will be posted on the HTC application updates portion of the website at <http://www.tdhca.state.tx.us/multifamily/htc.index.htm> and any changes to the area designations will be e-mailed to the applicant contact e-mail addresses as listed in the application.

(2) QAP 50.9(i)(12), Affordable Housing Needs Score - The number represented for the place is the number of points that may be requested for a Competitive Housing Tax Credit Application for the 2009 Application Round.

(3) QAP 50.5(a)(7), 2X Per Capita - A "Yes" in this column for a place indicates that the place violates the 2X per capita limitation; a "No" indicates that the place does not violate the 2X per capita limitation. HTC Unit Data is based on Board approvals through 10/15/2009. Population data is based on Texas State Data Center 2008 Population Estimate. A site located outside the boundaries of an incorporated place will use the County HTC per capita. The HTC per capita status of the Census Designated Places (CDP) shown in the table below is based on the county per capita. (December 23, 2009 Version)

Region	Place	County	Area Type-Rural or Urban (1)	2000 Census Population	2008 Population Estimate	Affordable Housing Need Score (2)	HTC Units in Place	Place Per Capita TX Per Capita	PI Per Cap >2x TX Per Cap (3)	CDP	Status Changed from Previous Analysis

2010 Competitive Housing Tax Credit Site Demographic Characteristics as of December 23, 2009

County Level - Sorted by County

Notes:

(1) QAP 50.5(a)(7), 2X Per Capita - A "Yes" in this column for a place indicates that the place violates the 2X per capita limitation; a "No" indicates that the place does not violate the 2X per capita limitation. HTC unit data is based on Board approvals through 10/15/2009. Population data is based on Texas State Data Center 2008 Population Estimate. (December 23, 2009 Version)

2010 Competitive Housing Tax Credit Site Demographic Characteristics as of December 23, 2009

Tract Level - Sorted by County then Tract

Tract Data Source: U.S. Census 2000

The complete tract identifier used by the Census Bureau is provided below (i.e. 48001950600). The first five digits are the state and county code. The remaining six digits are the tract code. Often in general use, only the tract code is shown with a decimal prior to the final two digits. For example, the above referenced tract would be shown as 9506.00.

Applicants may petition TDHCA to update the unit concentration data if they believe that the number of HTC units in the tract is in error. Such petition must be provided to Jason Burr via email at jason.burr@tdhca.state.tx.us or at fax at (512) 475-0764 prior to the commencement of the pre-application submission period for HTC applications. The results of such petitions will be posted on the HTC application updates portion of the website at <http://www.tdhca.state.tx.us/multifamily/htc/index.htm> and any changes to the area designations will be e-mailed to the applicant contact e-mail addresses as listed in the application.

Notes:

- (1) QAP §50.9(i)(16)(C), Tract MFI > County MFI Points - If "Yes", the Application is eligible for points pursuant to this section.
- (2) QAP §50.9(i)(16)(E), Developments Outside of Poverty Areas - If "Yes", the Application is eligible for points pursuant to this section.
- (3) QAP §50.9(i)(19), Developments Located in Census Tracts with No Other Same Type HTC Developments - If Development proposes to serve General populations - column says "Yes", the Application is eligible for points pursuant to this section.
- (4) QAP §50.9(i)(19), Developments Located in Census Tracts with No Other Same Type HTC Developments - If Development proposes to serve Elderly populations - column says "Yes", the Application is eligible for points pursuant to this section.
- (5) QAP §50.9(i)(19), Developments Located in Census Tracts with No Other Same Type HTC Developments - If Development proposes to serve Intergenerational populations - column says "Yes", the Application is eligible for points pursuant to this section.
- (6) QAP ineligibility item 50.6(g): If "Yes", New Construction Applications are ineligible for Housing Tax Credits unless the Applicant submits to the Department an approval of the Development referencing this rule in the form of a resolution from the Governing Body of the appropriate municipality or county containing the Development by the required deadlines outlined in the QAP.
- (7) For QAP ineligibility item 50.6(h), if "Yes", Application is ineligible for the 30% Eligible Basis Increase. (December 23, 2009 Version)
