Austin, TX 78701-2410

RE: #15110; Place of Grace, Beaumont, Jefferson County, Texas;
Response to Site Challenges dated March 27, 2015 by NuRock Companies.

Dear Ms. Saar:

This letter is provided in response to the Site Challenges made to Place of Grace (the "Development") by Daniel Allgeier, Vice President of NuRock Companies ("Challenger") pursuant to §11.10 of the 2015 Qualified Allocation Plan (the "QAP"). The Site Challenges relate to §10.101(a)(4)(B)(ii); §10.101(a)(3)(C) and §10.101(a)(3)(J) of the 2015 Uniform Multifamily Rules (the "Rules"). The Challenger asserts that because of undesirable site features and undesirable neighborhood features he raises, the Development should be ineligible to participate in the 2015 Competitive Tax Credit Round. We will address these issues in the order used by the Challenger.

We note that in the 9% Housing Tax Credit Application for the Development, the Development Owner certified that the Development is not located in an area with undesirable site features as further described in §10.101(a)(3) and that the Development is not located in an area with any of the undesirable neighborhood characteristics described in §10.101(a)(4) of the Rules and that no waiver request or disclosure was necessary.

A. CRIME.

The Challenger asserts that under §10.101(a)(4)(B)(ii) of the Rules, the Development Owner should have disclosed that crime is an undesirable neighborhood feature. Challenger provides a copy of a neighborhoodscout.com report for an address near the Development showing that the West Oakland neighborhood of Beaumont has 53 violent crimes for a rate of 23.43 violent crimes per 1,000 residents annually. Challenger additionally included an email correspondence with the neighborhoodscout.com customer service department which indicates the analysis is based upon 2013 crime reporting information. The email additionally acknowledges that the neighborhoodscout.com calculation does not confine itself to police department records, but instead draws from multiple agencies, which may well result in a higher incidence of crime than would be shown by the municipal police department.

Attached as **Exhibit A** is a copy of a Frequently Asked Question and Answer for 2015 dealing with §10.101(a)(3) and (4) of the Rules. In particular, the FAQ states that if the crime rate based upon a different definition of “immediately surrounding area” would not require disclosure, then no disclosure is needed. Based upon the location of the Development in Census Tract 48245002200 (the “Census Tract”), the crime rate for the area immediately surrounding the Development does not exceed 18 incidents recorded per 1,000 persons annually, and accordingly no disclosure was required.

In calculating the crime rate, the Development Owner used the Census Tract because the 2010 population could be readily ascertained (as opposed to defining the population within a police beat or a half mile radius, which is very difficult!). The 2010 population of the Census Tract is of 2,613 per American FactFinder (Please see **Exhibit B**). If the crime rate for Part 1 violent crimes may not exceed 18 reported incidents per 1,000 residents, then the point at which disclosure is required is if there are more than 47 Part 1 Violent Crimes in the year.

Acting as the Development Owner’s Authorized Representative, I requested the Beaumont Police Department provide a listing of all crime calls, incidents and reports for the calendar year 2014 within the Census Tract area. To achieve such a listing, a map of the Census Tract and a boundary description using street names was provided to Judy Hickman, Assistant Supervisor of the Beaumont Police Records Division. Ms. Hickman designed a report listing all such calls, incidents and reports in the records for 2014, sorted based upon the nature of the crime. A copy of that listing with the Call Disposition Key is attached as **Exhibit C** (the “Listing”). The Listing includes more calls, incidents and reported crimes than occurred in the Census Tract because the software pulled information from a somewhat larger area than the Census Tract and included both sides of each boundary street, so those not lying within the Census Tract on the basis of the recorded street address were disregarded for the purpose of calculating the crime rate. Additionally, calls with no crime reports filed were disregarded, as well as calls where there was a finding of “No Offense Report” or “Invest[igate] Only.”

Part 1 Violent Crimes consist of Homicide, Sexual Assault, Robbery and Aggravated Assault (Please see **Exhibit D**). The Beaumont Police Department categorizes information on Homicide, Sexual Assault, Robbery and Assault. Because the Listing does not distinguish between simple assault and aggravated assault, I reviewed the Listing to confirm reported incidents of Assault within the Census Tract, and Ms. Hickman reviewed the crime reports to confirm which ones qualified as “Aggravated Assaults.” Ms. Hickman confirmed that out of the 59 Assaults with report numbers shown in the Listing, five reports identified the assaults as being “aggravated,” and one report identified the incident being one of “strangulation,” which was also included as being an Aggravated Assault. (Please see **Exhibit E**).

Beaumont Police Department also had some reported crimes identified as Child Abuse, Injury to a Child and Victim of Shooting/Stabbing. Because these appeared to be more specific crime descriptions that might also have been characterized as Aggravated Assault, Ms. Ashline investigated the reports filed on those within the Census Tract and added to the crime count 13 recorded incidents that were not labeled as Part 1 Violent Crimes but which might actually

qualify as Aggravated Assaults. The crime count for the Census Tract for 2014 is shown on **Exhibit F**. The total number of incidents recorded which were described as Part 1 Violent Crimes or which otherwise appear to qualify as Part 1 Violent Crimes occurring within the Census Tract during 2014 was 35. Based upon the population of the Census Tract, this provides a crime rate of 13.39 per 1,000 persons. A crime rate of 13.39 Part 1 Violent Crimes per 1,000 persons is not a rate which requires disclosure by the Development Owner. Pursuant to the previously referenced FAQ, no disclosure was therefore required in the Application.

B. NEARBY INDUSTRY

The Challenger argues that two heavy industrial manufacturing facilities exist within 500 feet of the site and should have been disclosed as undesirable site features pursuant to §10.101(a)(3)(C) of the Rules. In the Rules, examples of such heavy industrial or dangerous uses are given and include manufacturing plants, fuel storage facilities (excluding gas stations), refinery blast zones, etc. One of the facilities cited is the Kilgore Industrial/Ranger Bolt and the second is the Lone Star Rigging.

First, we ask that the Staff note that although the Development Owner has 18.063 acres under contract, the Development is to be built only on the northernmost 10.378 acres, which is more than 770 feet from the closest of these facilities (Please see **Exhibit G**). While the referenced facilities are within 500 feet of the 18.063 acres under contract, they are **not** within 500 feet of the Development site and therefore are not reportable Undesirable Site Features under §10.101(a)(3)(C) as suggested by the Challenger. Additionally, all of the facilities are located on the southern frontage road of US-69S (an interstate standard limited access Federal Highway) and are therefore across a major highway from the Development.

That having been said, the Challenger has mischaracterized the nature of the facilities identified. First, all the locations are zoned Light Industrial, not Heavy Industrial (Please see **Exhibit H**). Secondly, there is no heavy manufacturing going on at any of these locations:

A. The Kilgore Industrial facility consists of a small office building. Kilgore Industrial is a labor contractor that provides skilled labor to the petrochemical/refining industries. There is no fabrication on Kilgore's property; they provide welders, etc. who fabricate tanks on the property of their petrochemical/refinery customers. This facility can best be described as a "personnel office."

B. Kilgore Industrial owns Ranger Bolt. Ranger Bolt's facilities include a small metal building which serves as a small sales/warehousing office. Nothing is manufactured by Ranger; they purchase the bolts/fasteners they sell from a manufacturer in Houston.

C. Lone Star Rigging's facility consists of a metal building for sales/warehousing purchased supplies. The company purchases wire rope from a manufacturer in Houston. Lone Star's customers ask the company to cut a wire rope to the length the customer needs. Lone

Star will put a loop or install a fastener on the end of the wire rope to the customer's specifications (used to moor ships and barges).

Please see the photographs of the three facilities attached as **Exhibit I**. These are not heavy manufacturing locations and are more than 500 feet from the Development Site in any event, so they were not required disclosures in the Application.

C. ENVIRONMENTAL FACTORS

The Challenger asserts that the City of Beaumont's land fill (5895 Lafin Road, Beaumont), and a wastewater treatment plant (4900 Lafin Road, Beaumont), constitute environmental factors that may adversely affect the health and safety of the residents and which cannot be adequately mitigated (§10.101(a)(3)(J)). The gist of Challenger's argument is that generally landfills and wastewater treatment plants produce gases which have "strong pungent odors and adverse health effects."

The TDHCA has already considered the effect of solid waste or sanitary landfills and has determined that they need to be considered as possible undesirable features when they are within 300 feet of a Development Site, as stated in §10.101(a)(3)(C) of the Rules. Because the land fill is located more than 3,000 feet from the Development Site, we believe it does not constitute an undesirable site feature requiring identification in the Application and consideration by TDHCA Staff and/or Board. The Challenger also objects to the wastewater treatment plant which is located more than 3,200 feet from the Development Site. In response to both allegations of undesirable environmental factors, we provide a letter from Jeffrey A. Saitas, P.E. of Saitas and Seales, an environmental consulting firm (Please see **Exhibit J**). Mr. Saitas was previously the Executive Director of the Texas Commission on Environmental Quality ("TCEQ") and he provides evidence of the high degrees of environmental compliance of both the land fill and the wastewater treatment plant and the lack of citizens' complaints concerning noxious odors emanating from the facilities. Mr. Saitas additionally points out that based upon the TCEQ's enforcement history in Beaumont, neither the land fill nor the wastewater treatment plant has been found to have State or Federal air quality violations during the last 14 years.

D. ADDITIONAL INFORMATION

As additional objections to the Development Site, the Challenger has listed a number of presumably offensive businesses located within three miles of the Development and cited the area as having blight evidenced by some boarded up widows within a mile of the Site and retail establishments that have bars installed over doors and windows. Challenger also listed six affordable housing developments within two miles of the Site as potentially negative factors indicating that the Development's Application should be terminated.

In our opinion, since the Challenger did not raise any situation that required disclosure under §10.101(a)(3) or §10.101(a)(4)(B) of the Rules, it is not necessary to reach the review contemplated by §10.101(a)(4)(C) of the Rules. However, to show that the immediate

Kathryn Saar
Competitive Tax Credit Program Administrator
April 22, 2015
Page 5

neighborhood of the development is a desirable neighborhood we are providing photos (Please see **Exhibit K**). Additionally, we suggest that the fact that there are so many affordable housing projects in the area indicates that the TDHCA has found southwest Beaumont to be an acceptable location for tax credit properties. The advisability of awarding tax credits to the Development is best assessed by reviewing the Market Study Report ("Market Study") prepared by Valbridge Property Advisors, to ascertain the capture rate projected for the Development. In Exhibit K the Market Study PMA Demographic Data summary indicates that the Gross Capture Rate for the Development is projected to be 4.7%, which is substantially below the 10% maximum capture rate for Qualified Elderly Developments provided in §10.302(i)(1)(A) of the Rules (Please see **Exhibit L**).

In summary, we believe that none of the Challenger's assertions have been shown to be meritorious, and that the Challenge to the Place of Grace should be denied.

Sincerely,

A handwritten signature in blue ink that reads "Miranda Ashline". The signature is written in a cursive, flowing style.

Miranda Ashline
Authorized Representative

Frequently Asked Question and Answer for 2015

(See attached)

2015 Competitive Application Cycle FAQ

Chapter 10, Subchapter A – Uniform Multifamily Rules

§10.3 – Definitions and Staff Determinations

Q: Will the Department underwrite Applications using an applicable percentage of 9%?

A: No. Unless new legislation has actually passed (not just been proposed) at the time an Application is submitted, the applicable percentage used in underwriting the Application will be 40 basis points over the current (February 2015) applicable percentage for 70% present value credits (for New Construction/Rehabilitation) in accordance with §10.3(a)(5) of the Uniform Multifamily Rules.

Chapter 10, Subchapter B – Uniform Multifamily Rules

§10.101(a)(2)(T) – Mandatory Community Assets (public transportation)

Q: [added 02/9/2015] What type of documentation should be submitted to evidence a regularly scheduled public transportation stop within ½ mile of the Development Site?

A: A map should be submitted to document the ½ mile distance requirement along with a route map/schedule to evidence that service is provided on a regularly scheduled basis.

§10.101(a)(3)-(4) – Undesirable Site Features and Neighborhood Characteristics

Q: Section 10.101(a)(4)(B)(ii) requires disclosure related to crime data in the “immediately surrounding area” and gives options for defining that area. If an Applicant determines that the Development Site is under the 18 per 1,000 persons threshold for one type of “immediately surrounding area” but not for another, is disclosure required?

A: No. For example, if the rate of part 1 violent crimes for the census tract in which the Development Site is located is lower than 18 per 1,000 persons annually but the rate for the police beat is over that threshold, disclosure is not required, assuming that disclosure is also not required pursuant to §10.101(a)(4)(B)(i) or (iii).

Q: How does the Department define “highly volatile liquids”?

A: Pursuant to 49 CFR §195.2, a Highly volatile liquid or HVL means a hazardous liquid which will form a vapor cloud when released to the atmosphere and which has a vapor pressure exceeding 276 kPa (40 psia) at 37.8 °C (100 °F). HVLs are usually liquids at pipeline pressures and become gaseous when exposed to the atmosphere. HVLs in a gaseous state are heavier than air and will flow along the ground and collect in lower elevations of the ground profile. They do not usually dissipate rapidly. HVLs in a gaseous state are usually flammable and explosive upon contact with an ignition source. Some HVLs are toxic when inhaled in a gaseous state. All HVLs will displace oxygen and are therefore asphyxiants in a gaseous state (i.e., even if the HVL plume in a gaseous state has not reached a source of ignition or ignited, the plume can be deadly).

AGE AND SEX
2009-2013 American Community Survey 5-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

36

Versions of this table are available for the following years:

2013
2012
2011
2010
2009

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

The age dependency ratio is derived by dividing the combined under-18 and 65-and-over populations by the 18-to-64 population and multiplying by 100.

The old-age dependency ratio is derived by dividing the population 65 and over by the 18-to-64 population and multiplying by 100.

The child dependency ratio is derived by dividing the population under 18 by the 18-to-64 population and multiplying by 100.

While the 2009-2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

EXHIBIT D

Definition of Part 1 Crimes against Persons (Violent Crimes)

(See attached)

Part 1 Crimes

Traditional Uniform Crime Reporting (UCR) guidelines track eight “Index Crimes,” known also as Part 1 crimes. The UCR system includes crimes that are most likely to be reported to the police and to occur with sufficient frequency to provide an adequate basis for comparison. Part 1 crime definitions are listed below:

Table 1-A: Part 1 Crimes against Persons (Violent Crime)	
CRIME	DEFINITION
Homicide	<p>Homicide includes the offenses of Murder and No negligent Manslaughter and is the willful killing of one human being by another. As a general rule, any death due to injuries received in a fight, argument, quarrel, assault, or commission of a crime is counted as a Homicide. The definition of Homicide excludes the following situations: deaths caused by negligence, suicide, or accident; justifiable homicides; and attempts to murder or assaults to murder, which are counted as Aggravated Assaults.</p> <p>It is important to note that Homicides are counted based on the specific circumstances of the incidents, not on the criminal charges filed as a result of those incidents. For instance, situations where a victim dies of a heart attack as the result of a robbery or witnessing a crime do not meet the criteria for inclusion in the Homicide classification.</p>
Sexual Assault	<p>Sex Assault includes only Forcible Rape, which is the carnal knowledge of a female forcibly and against her will. Assaults with attempt to commit rape, and other attempts to commit rape by force or threat of force, are also included; however, statutory rape (without force) and other sex offenses are excluded. Sexual attacks on males are counted as Aggravated Assaults or other sex offenses, depending on the circumstances and the extent of any injuries.</p>
Robbery	<p>Robbery is the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.</p>
Aggravated Assault	<p>Aggravated Assault is the unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. Aggravated Assault is usually accompanied by the use of a weapon or by other means likely to produce death or great bodily harm. An attempted Aggravated Assault that involves the display of—or threat to use—a gun, knife, or other weapon is included in this crime category, because serious personal injury would likely result if the assault were completed.</p>

Table 1-B: Part 1 Property Crimes

CRIME	DEFINITION
Burglary	Burglary is the unlawful entry of a structure to commit a felony or theft. The use of force to gain entry is not required to classify an offense as a burglary.
Larceny (and Theft from Motor Vehicle)	Larceny is the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another; attempts to do these acts are included in the definition. This crime category includes shoplifting, pocket-picking, purse-snatching, bicycle thefts, and so forth, in which no use of force, violence, or fraud occurs. Excluded from Larceny are Auto Theft and crimes that involve Embezzlement, confidence games, Forgery, and worthless checks, which are classified in separate offense categories. Theft from Motor Vehicle is the theft of articles from a motor vehicle, whether locked or unlocked, or the theft of any part or accessory affixed to the interior or exterior of a motor vehicle in a manner that would make the item an attachment of the vehicle or necessary for its operation.
Auto Theft	Auto Theft is the theft or attempted theft of a motor vehicle. The offense includes the stealing of automobiles, trucks, buses, motorcycles, snowmobiles, etc. The taking of a motor vehicle for temporary use by persons having lawful access is excluded from this definition.
Arson	Arson is the willful or malicious burning or attempting to burn, with or without intent to defraud, a house, public building, motor vehicle or aircraft, personal property of another, etc.

The report you highlighted in yellow were not aggravated assaults. You were not able to pull those reports from our website.

Thanks,

Judy Hickman
Assistant Supervisor
Beaumont Police Records Division

To: Miranda Ashline <miranda.ashline@itexgrp.com>

I looked through the report numbers you sent and the only ones that are Aggravated are:

2014023593

2014005746

2014029003

2014017484

2014005397

2014026513

These were all flagged on your list as Agg Assault. I'm not sure if you were able to print them so if you need them from us the cost is \$6.00 (\$1.00ea).

I also found out that an Aggravated Assault is when the offender caused major injuries or used an aggravated weapon.

Thanks,

Judy Hickman
Assistant Supervisor
Beaumont Police Records Division

Subject: Re: Request for Crime Information

Hi Ms. Hickman,

I took the time to put the 59 "Assaults" with report numbers into an excel spreadsheet which is attached. These report numbers were pulled from the spreadsheet that is sorted by Nature.

The first column in the spreadsheet lists the report number.
The second column in the spreadsheet lists what the report number pulls up on the

Beaumont PD Event Search page.

-Of the 59 reports, 5 of them show as agg assault, these are highlighted in red.

-Of the 59 reports, 15 of them do not pull anything up, these are highlighted in yellow.

Would you be able to provide me documentation that shows if they are "Assault" or "Agg Assault"?

-Of the 59 reports, 2 of the reports that are listed as "Assault" on the 2014 incidents list come up on the website as something other than "Assault" one comes up as "Cont Sub" and the other as "Burglary forcible entry". Both of these are highlighted in blue -- **do you know why they might be listed as Assault but show up as something different?**

Thank you so much for your help.

Here is the same report by the nature of the call. The only way we could find out what kind of an assault it was would be to look each one of them up. The sexual assaults are called in by that.

Thanks,

Judy Hickman

Subject: Re: Request for Crime Information

Hi Ms. Hickman,

As I'm going through the report you sent me I notice that either it says "sexual assault" or "assault". How could I find out if the "Assault" were aggravated or not? Also what is the last column on the page in reference to, it is titled "CloseC"?

Thank you,
Miranda

Ms. Hickman,

Thank you greatly for your help. Just as a follow up to our conversation. I think it would be best if I could have a report from 1/1/14-12/31/14 for this area if at all possible. Again, I'm sorry for all the back and forth.

That is the complete listing of the calls that were made during the time period you requested. If you need the report you can request each one of them. There is a \$1.00 charge for each public copy of the report. The calls that have number under the Rpt # column have an incident report. All of the calls have an event number. Only the calls that have a report number have a report.

I hope this helps!

Thank you Ms. Hickman. Are these just the incidents that were recorded, or do they also include the call log?

Miranda, I am not really very happy with the way this report sorted the data. I couldn't re-sort it but here it is. I can possibly run it again but the data won't be exact. The way our program works, we can't really save a search map, I would have to redraw it and the map points probably wouldn't be exactly the same. If this isn't helpful, I can try to do it some other way. Hopefully, you can just use this on the screen since it is such a big report. Good luck!!

I just need the recorded incidents. Instead of printing them could you PDF and email to me? Would that make it easier?

I don't know about the website.

There are "events" when the police respond and don't make a report

There are incidents where we make a report and then there are burglar alarm calls, traffic accidents, traffic stops, etc. There are 800-900 pages of events. I didn't want to print all of that if you were looking for something else.

Thanks,

Subject: Re: Request for Crime Information

Good morning Ms. Hickman,

Yes, I'm interested in incidents and arrests. I do not need accident reports. Those are the three categories, correct?

I actually worked all weekend on pulling the incident reports myself from the Police Departments website. My concern is when I put in a range, such as just 0.5 miles the incidents that come up are almost 5 miles away from the site; completely out of the range I

inserted. Do you know if there is an error with the range search on the website?

Thank you for you help.

Hi Ms. Hickman,

Thank you for taking the time out of your day to speak with me. I really appreciate your help in this matter. I am trying to obtain all the crime information in the form of incident records for a specific census tract in Beaumont, Texas. I'm trying to evaluate how many violent crimes were in the area from January 2012-December 2014. My understanding of violent crimes are -- Murder, Robbery, Sexual Assault, and Assault. I'll continue to do my research, but I thought I would pose the question again -- For a violent crime is any type of assault counted, or is just aggravated assault counted?

Would you be able to provide me with the incident reports from January 2012 through December 2014 for the area described below?

The Census Tract in Blue labelled 22.00 is the area that I would like to see the crimes for.

The boundaries are as follows: Starting at the intersection of I-10 and Washington Blvd. Travel east on Washington Blvd, then go south on S 4th Street to Hwy 69. At Hwy 69 head east to Avenue A. At the intersection of Hwy 69 and Avenue A go south on Avenue A for about 1,100 feet until the canal. Go west along the canal until the City of Beaumont's wastewater treatment plant road. Go south on the City of Beaumont's wastewater treatment plant road until the canal. Go northwest along the canal (canal that runs behind Tyrrel Park) and until you get to Walden Road. Go west on Walden Road to I-10. Then go from I-10 to Washington Blvd.

Photographs of alleged “heavy industry” facilities

(See attached)

Kilgore Industrial located at 4245 W Cardinal Drive, Beaumont, Texas 77705.

Kilgore located at 4245 W Cardinal Drive, Beaumont, Texas 77705. On the very left side of the picture you can see a road. This is the feeder road to Highway 69.

Ranger Bolt is located just east of Kilgore Industrial at 4215 W Cardinal Drive, Beaumont, Texas 77705. Lone Star is located just east of Ranger Bolt, as you can see in this picture, at 4175 W Cardinal Drive, Beaumont, Texas 77705.

EXHIBIT J

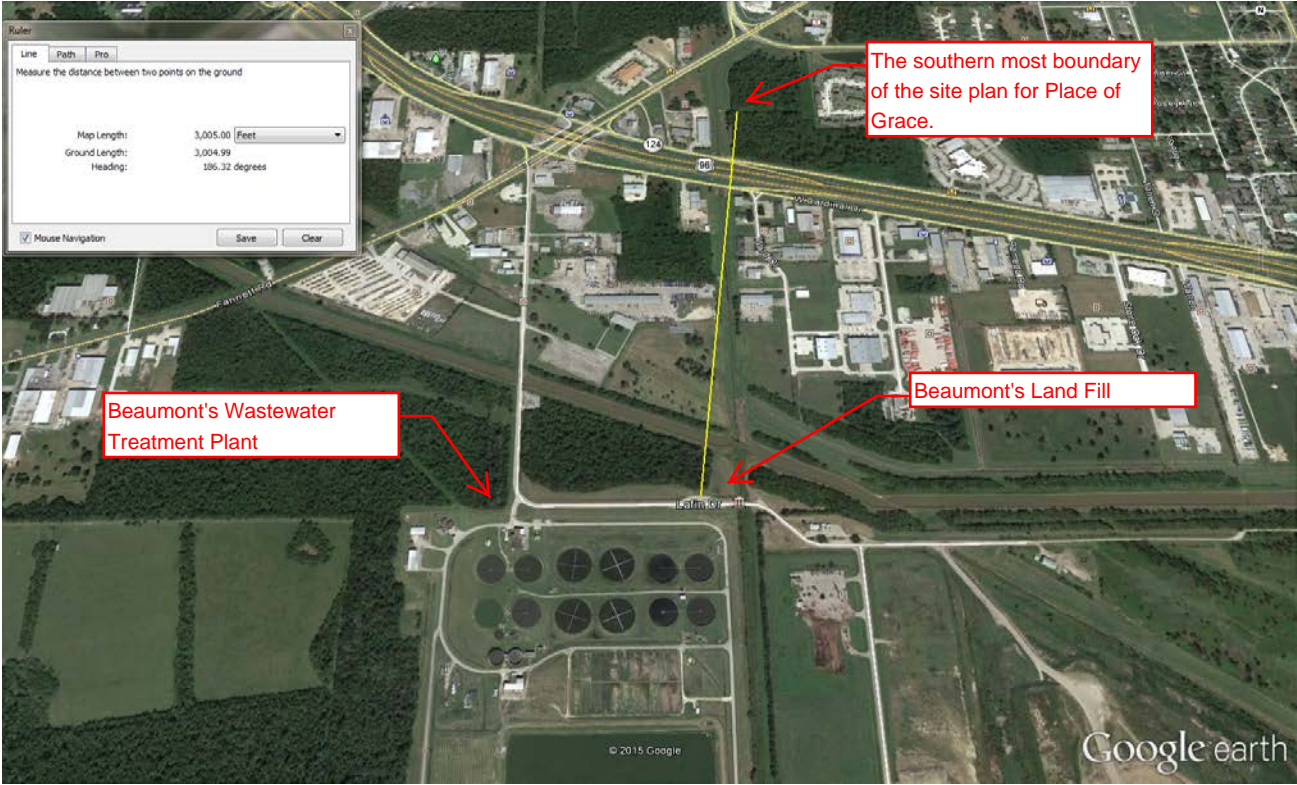

**Distance to Beaumont Land Fill and Wastewater Treatment Plant
and Letter from Jeffrey A. Saitas, P.E. of Saitas and Seales**

(See attached)

The site control on Place of Grace is over 2,500 feet away from the City of Beaumont's land fill and wastewater treatment plant.

The site control on Place of Grace is over 2,500 feet away from the City of Beaumont's land fill and wastewater treatment plant. However, Place of Grace is being built on the northern 10.378 acres, so the site will be over 3,000 feet away.

Saitas and Seales

Jeffrey A. Saitas, P.E.

Terri D. Seales

Date: April 17, 2015

Mr. Chris Akbari, Executive Vice President
ITEX Group
3735 Honeywood Court
Port Arthur, Texas 77642

Dear Mr. Akbari,

You have asked that we review the comments provided to the TDHCA by NuRock Companies (NuRock) pertaining to the potential for adverse environmental exposure for future residents of the Place of Grace housing facility. As you know, our firm is an environmental consulting firm whose principals—Jeff Saitas and Terri Seales—provide expertise on matters relating to the Texas Commission on Environmental Quality (TCEQ) and the United States Environmental Protection Agency (EPA). Jeff is a registered professional engineer and former executive director of the TCEQ, and Terri has 15 years of experience in environmental matters at the Texas Legislature, the TCEQ and the Texas Railroad Commission. Our combined 40 plus years of environmental experience gives us an ability to provide analysis and advice regarding issues over which these agencies have jurisdiction.

Given that NuRock has raised concerns about potential adverse environmental effects from two existing City of Beaumont facilities, we reviewed TCEQ records regarding air quality data for the area and the environmental performance of both the City of Beaumont's wastewater treatment plant as well as the City of Beaumont's landfill.

Air Quality Data

TCEQ maintains a statewide network of air quality monitors, including sixteen monitors in Jefferson County. Two of these monitors are located in Beaumont proper, one on Mary Street and one on Vermont Avenue. Both of these monitors are located upwind of the location proposed for the Place of Grace facility. Therefore, no site specific monitoring data exists for the proposed location, or for most of the Beaumont area.

While no monitoring data exists for the site, it should be noted that the TCEQ reviews the Jefferson County monitoring data annually, and is required to conduct periodic reviews of the adequacy of the monitoring network under an EPA protocol. In its most recent evaluation of the data published October 24, 2014, TCEQ toxicologists found no cause for concern for residents of Beaumont, and noted that air quality in Jefferson County is improving with regards to benzene.¹

¹ See Exhibit B. TCEQ toxicologists specifically concluded the following: "All hourly and annual VOC concentrations gathered from the autoGCs at the Beaumont Downtown, Port Arthur Memorial School, and Nederland High School sites were below their respective short-term and long-term AMCVs (including odor thresholds) and would not be expected to cause adverse effects."

The TCEQ most recently evaluated the adequacy of the monitoring network in 2010, after the Beaumont landfill and wastewater treatment plant had been constructed and in operation. The review found that the network, including the Jefferson county monitors, meets or exceeds the EPA's rules and guidance.²

Air Emissions from the City of Beaumont Landfill and the Wastewater Treatment Facility

The commenters noted no concerns specific to the air quality performance at either the City of Beaumont Landfill or the Wastewater Treatment Facility, citing instead comments from EPA on the risks of such a facility in general, along with a discussion of the prevailing winds in the area.

In response to these general concerns, EPA and TCEQ have adopted a series of requirements for these types of facilities to ensure that they do not cause these problems. In Texas, therefore, facilities are prohibited by Chapter 382, Health and Safety Code, from emitting air contaminants without authorization, and such authorizations may only be issued if the TCEQ is assured that the facility will not cause a harm to human health or the environment.³ This prohibition applies to facilities ranging in size from the smallest domestic heating and cooling devices to the largest catalytic cracking units. Regardless of their permit status, operations are also prohibited from causing nuisance odor.

Thus, the TCEQ permitting process for both of these facilities is rigorous, and is designed to prevent the types of concerns cited by NuRock in their challenge. In particular, the landfill is required to obtain an air quality authorization from TCEQ, which it has done. TCEQ inspections have found the landfill to be in compliance with its air quality authorization. The wastewater facility is not required to hold such an authorization, but it is also subject to the requirement that it not cause a nuisance. As discussed in detail below, neighbors can and do complain about such facilities, but the track record for both facilities has been good, with no instances of nuisance odors documented by the agency.

Finally, it should be noted that, with respect to potentially more problematic air quality issues such as toxics, the location site is good. Jefferson County and Beaumont have a lot of heavy industry, and the site is located well away with respect to these types of facilities.

TCEQ Enforcement History - City of Beaumont

The TCEQ maintains an online database of Administrative Enforcement Orders issued by the agency. The TCEQ Enforcement Orders can be accessed online at <http://www14.tceq.texas.gov/epic/CIO/>. TCEQ Enforcement Orders levied against the City of Beaumont can be accessed by entering the unique Customer Number for the City of Beaumont, CN600130439, and running a search for the City of Beaumont Enforcement Orders. A search can also be run using the unique identifier for the wastewater treatment plant, RN101612224, or the unique identifier for the landfill, RN102987369.

The TCEQ Enforcement Order Database identifies five Administrative Orders issued by the TCEQ since 2001. None of the enforcement orders contain any of the allegations raised by NuRock Companies regarding air emissions from either the City of Beaumont's wastewater treatment plant or the City of Beaumont's landfill. All of the allegations raised by the TCEQ against the City of Beaumont are listed on Exhibit A. This review of the Enforcement Actions taken by the TCEQ against the City of Beaumont

² Texas Commission on Environmental Quality, 2010 Five Year Ambient Air Monitoring Network Assessment (May 2010), p.4. Available at <http://www.epa.gov/ttnamti1/files/networkplans/TXAssess2010.pdf>.

³ See Texas Health and Safety Code Section 382.0518.

indicates that the City of Beaumont has not been found to have had state or federal air quality violations at either the City's landfill or the City's wastewater treatment plant in the last 14 years.

TCEQ Citizen Complaint History - City of Beaumont

The Challenger, NuRock Companies, mentions that the TCEQ has established a system to determine if an odor nuisance exists based on citizen complaints. In fact, the TCEQ maintains an online database that tracks that status of complaints to the TCEQ. The TCEQ database can be accessed at the following web site. <https://www.tceq.texas.gov/complaints/waci.html>. Information regarding complaints filed with the TCEQ concerning the wastewater treatment plant can be accessed by searching the TCEQ Complaint Database using the City of Beaumont's unique identification number for the wastewater treatment plant, RN101612224.

In the last 10 years, the TCEQ has received and investigated twenty one complaints related to wastewater near the City's wastewater treatment plant. Of those twenty one complaints, twenty are related to raw sewage releases from the City's and homeowners' plumbing and piping systems. Most of those twenty complaints were associated with sanitary sewer overflows caused by excessive rain and flooding. Only one of the complaints, received by the TCEQ on May 17, 2007, was associated with the City of Beaumont's Wastewater treatment plant adjacent to the Tyrrell Park Golf Course. The following is an excerpt from the TCEQ's database about the complaint. After review, the TCEQ investigator assessed that no nuisance conditions were present.

The requestor was contacted on May 18, 2007, at 1:15 p.m. for additional information. The requestor reported that a very strong sewage type odor had been present at Tee Box 3, inside Tyrrell Park Golf Course, for the past week. The requestor reported that they did not observe a sewage discharge but was concerned there may be a broken sewer collection line in the area. The requestor was advised that the golf course was located adjacent to the City of Beaumont Wastewater Treatment Plant (WWTP) (WQ0010501-020), which may have been the source of the sewage-type odor.

An on-site investigation was conducted at 3:00 p.m., with Mr. Blain Dishman, Water Project Manager, Mr. Berry Burns, Sewer Collections Inspector, and Mrs. Warren. The adjacent manhole was opened and inspected. There was a very low flow through the collection line. Mrs. Warren reported that she was unsure what the collection line served. She advised that the line ran west, away from Tee 3, back towards Tyrrell Park Rd. and the WWTP. She advised that there are no other wastewater collection lines near the tee. The area around the golf tee was inspected for signs of a sewage discharge. None were noted. A natural drainage area near the tee was wet from recent rainfall. A light, intermittent sewage type odor was detected while at Tee 3. No nuisance conditions were present.

With respect to the City of Beaumont's Landfill located at 5895 Lavin Dr., Beaumont TX 77705, a TCEQ complaint database search was conducted using the landfill's unique identifier, RN102987369. No complaints have been filed with the agency concerning the City's landfill.

TCEQ Compliance History - City of Beaumont

The TCEQ rules (30 TAC Chapter 60) require that the agency rate the compliance history of every owner or operator of a facility that is regulated under any of these state environmental laws;

- the water-quality laws of Texas Water Code Chapter 26
- laws for the installation and operation of injection wells (TWC Chapter 27)
- Subsurface Area Drip Dispersal Systems (TWC Chapter 32)
- the Texas Solid Waste Disposal Act (Texas Health & Safety Code Chapter 361)
- the Texas Clean Air Act (THSC Chapter 382)
- Removal of Convenience Switches (THSC Chapter 375)
- the Texas Radiation Control Act (THSC Chapter 401)

In the TCEQ databases, the agency refers to these owners and operators as “customers.” A customer can be an individual, a company, a governmental agency, or any of several other kinds of organizations.

The compliance history of a customer—overall or with a particular regulated entity—is based on many factors. From this history, the TCEQ staff develops a numerical rating (0 = best; the score increases with poorer compliance). This numerical rating is then converted to a general classification.

The compliance history entails both positive and negative factors related to the customer's environmental performance at a site over the past five years—for example, whether at this site this customer has:

- conducted a self-audit under the Texas Environmental, Health, and Safety Audit Privilege Act
- participated in voluntary environmental management systems
- participated in TCEQ-sponsored voluntary pollution reduction programs
- received an enforcement order, court judgment, consent decree, or criminal conviction for environmental violations under the jurisdiction of the TCEQ or the EPA
- received an enforcement order, court order, or criminal conviction related to environmental violations in another state
- received a citation for a chronic excessive emissions event
- received a notice of violation from the TCEQ
- received one or more inspections from the TCEQ (and, if so, the results of those inspections)

This information is compiled in a document called a compliance history report. State rules spell out a procedure for quantifying the significance of each factor in the compliance history. The resulting rating is, in a sense, a measure of the customer's distance from compliance. A rating of zero indicates perfect compliance. A customer's rating increases with each failure to comply.

Ratings are converted to classifications as follows:

If the calculated* rating is:	Then the performance is classified as:	This classification means that <i>at this site</i> the customer:
Below 0.10	High	Complies with environmental regulations extremely well.
0.10–55.00	Satisfactory	Generally complies with environmental regulations.
Greater than 55.00	Unsatisfactory	Fails to comply with a significant portion of the relevant environmental regulations.

The TCEQ compliance history ratings can be found at this web address.

<http://www11.tceq.texas.gov/oce/ch/>. Searching the database using the City of Beaumont's unique identifier for the landfill, the compliance history for the City of Beaumont landfill was identified as 0.86. This rating is on the high end of the satisfactory category indicating a high degree of environmental compliance. Similarly, the compliance history for the wastewater treatment plant was identified as 0.93 again indicating a high degree of environmental compliance.

Thank you for the opportunity to provide these comments. Please let us know if additional environmental concerns are raised.

Sincerely,

Jeff Saitas

Saitas and Seales

Exhibit A

TCEQ Allegations Raised in TCEQ Enforcement Actions

TCEQ Order 2009-1850-WQ-E issued March 30, 2012

1. Failed to obtain authorization to discharge storm water associated with construction activities, in violation of 30 TEX. ADMIN. CODE § 281.25(a)(4) and 40 CODE OF FEDERAL REGULATIONS § 122.26(c), as documented during an investigation conducted on September 24, 2009. Specifically, the investigator observed that the City had cleared and excavated four parcels of land along Crockett Street totaling approximately 4.6 acres.
2. Failed to prevent the unauthorized discharge of sediment into or adjacent to water in the state, in violation of TEX. WATER CODE § 26.121(a), as documented during an investigation conducted on September 24, 2009. Specifically, during the September 24, 2009 investigation, the investigator observed sediment runoff and tracking along Crockett Street from Holmes Street to Neches Street City of Beaumont DOCKET NO. 2009-1850-WQ-E Page 3 and sediment leaving the Site by storm water runoff along the gutters of Crockett Street in a southwest direction.

TCEQ Order 2008-0759-SPF issued March 30, 2012

An Administrative Order regarding cleanup of the Specter Salvage Yard State Superfund Site.

TCEQ Order 2005-1901-MWD-E issued May 17, 2006

As owner and operator of the Facility, the City is alleged to have failed to comply with permitted effluent limits, in violation of 30 TEX. ADMIN. CODE § 305.125(1), TEX. WATER CODE § 26.121(a) and TPDES Permit No. 10501020, Effluent Limitations and Monitoring Requirements No. 1 for Outfall No. 001, as documented during a record review conducted on October 28, 2005.

TCEQ Order 2004-1847-MWD-E issued February 8, 2006

As evidenced by Finding of Fact No. 3, the City failed to prevent the unauthorized discharge of sewage into Ditch 100-A from the 23rd Street lift station, in violation of Tex. Water Code Section 26.121(a), TPDES Permit No. 0010501020, Permit Conditions, No. 2(g), Page 7, and 30 Tex. Admin. Code Section 305.125(1).

TCEQ Order 2000-1415-MWD-E issued October 10, 2001

As owner and operator of the facility, the City of Beaumont is alleged to have failed to prevent the unauthorized discharge of approximately 9,000 gallons of water treatment chemicals containing sodium hydroxide and ammonia, released from a ruptured storage tank, from entering Brakes Bayou and resulting in a fish kill of approximately 12,978 fish in a 1.8 mile section of the bayou on April 28, 2000, in violation of TEXAS WATER CODE Section 26.121, as documented during an investigation conducted on May 1, 2000.
