2010 At-Risk Pre-Application Submission Log

This log contains all pre-applications submitted in the “At-Risk” or “USDA” set-asides. The Department is required to set-aside at least fifteen (15%) of the State Credit Ceiling for “At-Risk” development. The current estimated amount is \$7,662,997.

2010 Regional Pre-Application Submission Log

This log contains all pre-applications submitted for competition in each sub-region of the state. The current total estimated State Credit Ceiling is \$43,423,649. There are thirteen state regions that are divided into rural and urban sub-regions. Each sub-region has an estimated amount of allocation set-aside based on need for that sub-region. The amounts appearing at the beginning of each region in the log are estimated amounts and are subject to change.

Regions 4, 5, 6 and 8 contain applications that propose developments that are located in counties that were affected by Hurricane Ike. These applications (if competitive) may be awarded utilizing funds designated for Ike counties, if available, or with credit ceiling regionally allocated to the respective sub-region through the regional allocation formula if all Ike credits have been utilized. The current estimated amount for the Ike funding is \$14,906,160.
