Grand Total		\$ 58,633,207	\$ 471,591	\$ 59,104,798				\$ 59,104,798	100.00%		

NOTES:

This table reflects the allocation of the estimated Competitive Housing Tax Credit Ceiling that the Department expects to have available for allocation during the 2013 cycle. The ceiling is estimated as the 2013 population figure of 26,059,203 [IRS Notice 2013-15] multiplied by \$2.25 [Rev. Proc. 2012-41]. Credits returned this calendar year and available to be reallocated are reflected in a separate column of the chart. The column labeled "Final Funding Amount" is the column an Applicant can reference to determine the amount of credit allocation that is estimated to be available for the 2013 cycle. As credit is returned during the year, the formula and this chart will be updated. Additionally, in the later part of the year the IRS may release figures for the National Pool and this chart will be updated at that time to reflect the state's allocation from the National Pool.

This information is also used to set the maximum award limits for each State sub-region in accordance with 10 TAC §11.4(b). An Applicant cannot request or be awarded more than the amounts reflected in the column labeled "Max Funding Request/Award Limits (150%)," which were established based on estimates December 1, 2012. These award limits are fixed and will not change even if the regional funding amounts change based on future updates.
