PART 58--ENVIRONMENTAL REVIEW PROCEDURES FOR ENTITIES ASSUMING HUD ENVIRONMENTAL RESPONSIBILITIES--Table of Contents

Subpart A--Purpose, Legal Authority, Federal Laws and Authorities

Sec. 58.2 Terms, abbreviations and definitions.

- a. For the purposes of this part, the following definitions supplement the uniform terminology provided in 40 CFR part 1508:

 2. Certifying Officer means the official who is authorized to execute the Request for Release of Funds and Certification and has the legal capacity to carry out the responsibilities of Sec. 58.13.
 3. Extraordinary Circumstances means a situation in which an environmental assessment (EA) or environmental impact statement (EIS) is not normally required, but due to unusual conditions, an EA or EIS is appropriate. Indicators of unusual conditions are:
 - i. Actions that are unique or without precedent;
 - ii. Actions that are substantially similar to those that normally require an EIS;
 - iii. Actions that are likely to alter existing HUD policy or HUD mandates; or
 - iv. Actions that, due to unusual physical conditions on the site or in the vicinity, have the potential for a significant impact on the environment or in which the environment could have a significant impact on users of the facility.
 4. Project means an activity, or a group of integrally related activities, designed by the recipient to accomplish, in whole or in part, a specific objective.
 5. Recipient means any of the following entities, when they are eligible recipients or grantees under a program listed in Sec. 58.1(b):

 - E. For Indian housing authorities in Alaska, the Alaska native village in whose community the project is located, or if HUD determines this infeasible, a unit of general local government or the State, as designated by HUD.
8. Unit Density refers to a change in the number of dwelling units. Where a threshold is identified as a percentage change in density that triggers review requirements, no distinction is made between an increase or a decrease in density.

TITLE 24--HOUSING AND URBAN DEVELOPMENT

PART 58--ENVIRONMENTAL REVIEW PROCEDURES FOR ENTITIES ASSUMING HUD ENVIRONMENTAL RESPONSIBILITIES--Table of Contents

Subpart A--Purpose, Legal Authority, Federal Laws and Authorities

Sec. 58.4 Assumption authority.

- a. Assumption authority for responsible entities: General. Responsible entities shall assume the responsibility for environmental review, decision-making, and action that would otherwise apply to HUD under NEPA and other provisions of law that further the purposes of NEPA, as specified in Sec. 58.5. Responsible entities that receive assistance directly from HUD assume these responsibilities by execution of a grant agreement with HUD and/or a legally binding document such as the certification contained on HUD Form 7015.15, certifying to the assumption of environmental responsibilities. When a State distributes funds to a responsible entity, the State must provide for appropriate procedures by which these responsible entities will evidence their assumption of environmental responsibilities.
- b. Particular responsibilities of the States.
 1. States are recipients for purposes of directly undertaking a State project and must assume the environmental review responsibilities for the State's activities and those of any non-governmental entity that may participate in the project. In this case, the State must submit the certification and RROF to HUD for approval.
 2. States must exercise HUD's responsibilities in accordance with Sec. 58.18, with respect to approval of a unit of local government's environmental certification and RROF for a HUD assisted project funded through the state. Approval by the state of a unit of local government's certification and RROF satisfies the Secretary's responsibilities under NEPA and the related laws cited in Sec. 58.5.
- c. Particular responsibilities of Indian tribes. An Indian tribe may, but is not required to, assume responsibilities for environmental review, decision-making and action for programs authorized by the Native American Housing Assistance and Self-Determination Act of 1996 (25 U.S.C. 4101 et seq.) (other than title VIII) or section 184 of the Housing and Community Development Act of 1992 (12 U.S.C. 1715z-13a). The tribe must make a separate decision regarding assumption of responsibilities for each of these Acts and communicate that decision in writing to HUD. If the tribe assumes these responsibilities, the requirements of this part shall apply. If a tribe formally declines assumption of these responsibilities, they are retained by HUD and the provisions of part 50 of this title apply.

Subpart A--Purpose, Legal Authority, Federal Laws and Authorities

Sec. 58.6 Other requirements.

In addition to the duties under the laws and authorities specified in Sec. 58.5 for assumption by the responsible entity under the laws cited in Sec. 58.1(b), the responsible entity must comply with the following requirements. Applicability of the following requirements does not trigger the certification and release of funds procedure under this part or preclude exemption of an activity under Sec. 58.34(a)(12) and/or the applicability of Sec. 58.35(b). However, the responsible entity remains responsible for addressing the following requirements in its ERR and meeting these requirements, where applicable, regardless of whether the activity is exempt under Sec. 58.34 or categorically excluded under Sec. 58.35(a) or (b).

- a.
 1. Under the Flood Disaster Protection Act of 1973, as amended (42 U.S.C. 4001-4128), Federal financial assistance for acquisition and construction purposes (including rehabilitation) may not be used in an area identified by the Federal Emergency Management Agency (FEMA) as having special flood hazards, unless:
 - i. The community in which the area is situated is participating in the National Flood Insurance Program (see 44 CFR parts 59 through 79), or less than one year has passed since the FEMA notification regarding such hazards; and
 - ii. Where the community is participating in the National Flood Insurance Program, flood insurance protection is to be obtained as a condition of the approval of financial assistance to the property owner.
 2. Where the community is participating in the National Flood Insurance Program and the recipient provides financial assistance for acquisition or construction purposes (including rehabilitation) for property located in an area identified by FEMA as having special flood hazards, the responsible entity is responsible for assuring that flood insurance under the National Flood Insurance Program is obtained and maintained.
 3. Paragraph (a) of this section does not apply to Federal formula grants made to a State.
- b. Under section 582 of the National Flood Insurance Reform Act of 1994, 42 U.S.C. 5154a, HUD disaster assistance that is made available in a special flood hazard area may not be used to make a payment (including any loan

assistance payment) to a person for repair, replacement or restoration for flood damage to any personal, residential or commercial property if:

1. The person had previously received Federal flood disaster assistance conditioned on obtaining and maintaining flood insurance; and
 2. The person failed to obtain and maintain flood insurance.
- c. Pursuant to the Coastal Barrier Resources Act, as amended by the Coastal Barrier Improvement Act of 1990 (16 U.S.C. 3501), HUD assistance may not be used for most activities proposed in the Coastal Barrier Resources System.

Determinations of legal capacity will be made on a case-by-case basis.
- b. If a public housing, special project, HOPWA, Supportive Housing, Shelter Plus Care, or Self-Help Homeownership Opportunity recipient that is not a responsible entity objects to the non-recipient responsible entity conducting the environmental review on the basis of performance, timing, or compatibility of objectives, HUD will review the facts to determine who will perform the environmental review.

Sec. 58.13 Responsibilities of the certifying officer.

Under the terms of the certification required by Sec. 58.71, a responsible entity's certifying officer is the "responsible Federal official" as that term is used in section 102 of NEPA and in statutory provisions cited in Sec. 58.1(b). The Certifying Officer is therefore responsible for all the requirements of section 102 of NEPA and the related provisions in 40 CFR parts 1500 through 1508, and 24 CFR part 58, including the related Federal authorities listed in Sec. 58.5. The Certifying Officer must also:

Subpart B--General Policy: Responsibilities of Responsible Entities

Sec. 58.14 Interaction with State, Federal and non-Federal entities.

A responsible entity shall consult with appropriate environmental agencies, State, Federal and non-Federal entities and the public in the preparation of an EIS, EA or other environmental reviews undertaken under the related laws and authorities cited in Sec. 58.5 and Sec. 58.6. The responsible entity must also cooperate with other agencies to reduce duplication between NEPA and comparable environmental review requirements of the State (see 40 CFR 1506.2 (b) and (c)). The responsible entity must prepare its EAs and EISs so that they comply with the environmental review requirements of both Federal and State laws unless otherwise specified or provided by law. State, Federal and local agencies may participate or act in a joint lead or cooperating agency capacity in the preparation of joint EISs or joint environmental assessments (see 40 CFR 1501.5(b) and 1501.6). A single EIS or EA may be prepared and adopted by multiple users to the extent that the review addresses the relevant environmental issues and there is a written agreement between the cooperating agencies which sets forth the coordinated and overall responsibilities.

PART 58--ENVIRONMENTAL REVIEW PROCEDURES FOR ENTITIES ASSUMING HUD ENVIRONMENTAL RESPONSIBILITIES--Table of Contents

Subpart B--General Policy: Responsibilities of Responsible Entities

Sec. 58.15 Tiering.

Responsible entities may tier their environmental reviews and assessments to eliminate repetitive discussions of the same issues at subsequent levels of review. Tiering is appropriate when there is a requirement to evaluate a policy or proposal in the early stages of development or when site-specific analysis or mitigation is not currently feasible and a more narrow or focused analysis is better done at a later date. The site specific review need only reference or summarize the issues addressed in the broader review. The broader review should identify and evaluate those issues ripe for decision and exclude those issues not relevant to the policy, program or project under consideration. The broader review should also establish the policy, standard or process to be followed in the site specific review. The Finding of No Significant Impact (FONSI) with respect to the broader assessment shall include a summary of the assessment and identify the significant issues to be considered in site specific reviews. Subsequent site-specific reviews will not require notices or a Request for Release of Funds unless the Certifying Officer determines that there are unanticipated impacts or impacts not adequately addressed in the prior review. A tiering approach can be used for meeting environmental review requirements in areas designated for special focus in local Consolidated Plans. Local and State Governments are encouraged to use the Consolidated Plan process to facilitate environmental reviews.

- a. Designate the state agency or agencies that will be responsible for carrying out the requirements and administrative responsibilities set forth in subpart H of this part and which will:
 1. Develop a monitoring and enforcement program for post-review actions on environmental reviews and monitor compliance with any environmental conditions included in the award.
 2. Receive public notices, RROFs, and certifications from recipients pursuant to Sec. 58.70 and Sec. 58.71; accept objections from the public and from other agencies (Sec. 58.73); and perform other related responsibilities regarding releases of funds.

- b. Fulfill the state role in subpart H relative to the time period set for the receipt and disposition of comments, objections and appeals (if any) on particular projects.

Subpart C--General Policy: Environmental Review Procedures

Sec. 58.22 Limitations on activities pending clearance.

- a. Neither a recipient nor any participant in the development process, including public or private nonprofit or for-profit entities, or any of their contractors, may commit HUD assistance under a program listed in Sec. 58.1(b) on an activity or project until HUD or the state has approved the recipient's RROF and the related certification from the responsible entity. In addition, until the RROF and the related certification have been approved, neither a recipient nor any participant in the development process may commit non-HUD funds on or undertake an activity or project under a program listed in Sec. 58.1(b) if the activity or project would have an adverse environmental impact or limit the choice of reasonable alternatives.
- b. If a project or activity is exempt under Sec. 58.34, or is categorically excluded (except in extraordinary circumstances) under Sec. 58.35(b), no RROF is required and the recipient may undertake the activity immediately after the responsible entity has documented its determination as required in Sec. 58.34(b) and Sec. 58.35(d), but the recipient must comply with applicable requirements under Sec. 58.6.
- c. If a recipient is considering an application from a prospective subrecipient or beneficiary and is aware that the prospective subrecipient or beneficiary is about to take an action within the jurisdiction of the recipient that is prohibited by paragraph (a) of this section, then the recipient will take appropriate action to ensure that the objectives and procedures of NEPA are achieved.
- d. An option agreement on a proposed site or property is allowable prior to the completion of the environmental review if the option agreement is subject to a determination by the recipient on the desirability of the property for the project as a result of the completion of the environmental review in accordance with this part and the cost of the option is a nominal portion of the purchase price. There is no constraint on the purchase of an option by third parties that have not been selected for HUD funding, have no responsibility for the environmental review and have no say in the approval or disapproval of the project.
- e. Self-Help Homeownership Opportunity Program (SHOP). In accordance with section 11(d)(2)(A) of the Housing Opportunity Program Extension Act of 1996 (42 U.S.C. 12805 note), an organization, consortium, or affiliate receiving assistance under the SHOP program may advance nongrant funds to acquire land prior to completion of an environmental review and approval of a Request for Release of Funds (RROF) and certification, notwithstanding paragraph (a) of this section. Any advances to acquire land prior to approval of the RROF and certification are made at the risk of the organization, consortium, or affiliate and reimbursement for such advances may depend on

the result of the environmental review. This authorization is limited to the SHOP program only and all other forms of HUD assistance are subject to the limitations in paragraph (a) of this section.

- f. Relocation. Funds may be committed for relocation assistance before the approval of the RROF and related certification for the project provided that the relocation assistance is required by 24 CFR part 42.

Sec. 58.30 Environmental review process.

- a. The environmental review process consists of all the actions that a responsible entity must take to determine compliance with this part. The environmental review process includes all the compliance actions needed for other activities and projects that are not assisted by HUD but are aggregated by the responsible entity in accordance with Sec. 58.32.
- b. The environmental review process should begin as soon as a recipient determines the projected use of HUD assistance.

PART 58--ENVIRONMENTAL REVIEW PROCEDURES FOR ENTITIES ASSUMING HUD ENVIRONMENTAL RESPONSIBILITIES--Table of Contents

Subpart D--Environmental Review Process: Documentation, Range of Activities, Project Aggregation and Classification

Sec. 58.32 Project aggregation.

- a. A responsible entity must group together and evaluate as a single project all individual activities which are related either on a geographical or functional basis, or are logical parts of a composite of contemplated actions.
- b. In deciding the most appropriate basis for aggregation when evaluating activities under more than one program, the responsible entity may choose: functional aggregation when a specific type of activity (e.g., water improvements) is to take place in several separate locales or jurisdictions; geographic aggregation when a mix of dissimilar but related activities is to be concentrated in a fairly specific project area (e.g., a combination of water, sewer and street improvements and economic development activities); or a combination of aggregation approaches, which, for various project locations, considers the impacts arising from each functional activity and its interrelationship with other activities.
- c. The purpose of project aggregation is to group together related activities so that the responsible entity can:
 1. Address adequately and analyze, in a single environmental review, the separate and combined impacts of activities that are similar, connected and closely related, or that are dependent upon other activities and actions. (See 40 CFR 1508.25(a)).
 2. Consider reasonable alternative courses of action.
 3. Schedule the activities to resolve conflicts or mitigate the individual, combined and/or cumulative effects.
 4. Prescribe mitigation measures and safeguards including project alternatives and modifications to individual activities.
- d. Multi-year project aggregation--
 1. Release of funds. When a recipient's planning and program development provide for activities to be implemented over two or more years, the responsible entity's environmental review should consider the relationship among all component activities of the multi-year project regardless of the source of funds and address and evaluate their cumulative environmental effects. The estimated range of the aggregated activities and the estimated cost of the total project must be listed and described by the responsible entity in the

environmental review and included in the RROF. The release of funds will cover the entire project period.

2. When one or more of the conditions described in Sec. 58.47 exists, the recipient or other responsible entity must re-evaluate the environmental review.

Sec. 58.33 Emergencies.

- a. In the cases of emergency, disaster or imminent threat to health and safety which warrant the taking of an action with significant environmental impact, the provisions of 40 CFR 1506.11 shall apply.
- b. If funds are needed on an emergency basis and adherence to separate comment periods would prevent the giving of assistance during a Presidentially declared disaster, or during a local emergency that has been declared by the chief elected official of the responsible entity who has proclaimed that there is an immediate need for public action to protect the public safety, the combined Notice of FONSI and Notice of Intent to Request Release of Funds (NOI/RROF) may be disseminated and/or published simultaneously with the submission of the RROF. The combined Notice of FONSI and NOI/RROF shall state that the funds are needed on an emergency basis due to a declared disaster and that the comment periods have been combined. The Notice shall also invite commenters to submit their comments to both HUD and the responsible entity issuing the notice to ensure that these comments will receive full consideration.

Subpart D--Environmental Review Process: Documentation, Range of Activities, Project Aggregation and Classification

Sec. 58.34 Exempt activities.

- a. Except for the applicable requirements of Sec. 58.6, the responsible entity does not have to comply with the requirements of this part or undertake any environmental review, consultation or other action under NEPA and the other provisions of law or authorities cited in Sec. 58.5 for the activities exempt by this section or projects consisting solely of the following exempt activities:
 1. Environmental and other studies, resource identification and the development of plans and strategies;
 2. Information and financial services;
 3. Administrative and management activities;
 4. Public services that will not have a physical impact or result in any physical changes, including but not limited to services concerned with employment, crime prevention, child care, health, drug abuse, education, counseling, energy conservation and welfare or recreational needs;
 5. Inspections and testing of properties for hazards or defects;
 6. Purchase of insurance;
 7. Purchase of tools;
 8. Engineering or design costs;
 9. Technical assistance and training;
 10. Assistance for temporary or permanent improvements that do not alter environmental conditions and are limited to protection, repair, or restoration activities necessary only to control or arrest the effects from disasters or imminent threats to public safety including those resulting from physical deterioration;
 11. Payment of principal and interest on loans made or obligations guaranteed by HUD;
 12. Any of the categorical exclusions listed in Sec. 58.35(a) provided that there are no circumstances which require compliance with any other Federal laws and authorities cited in Sec. 58.5.

- b. A recipient does not have to submit an RROF and certification, and no further approval from HUD or the State will be needed by the recipient for the drawdown of funds to carry out exempt activities and projects. However, the responsible entity must document in writing its determination that each activity or project is exempt and meets the conditions specified for such exemption under this section.

TITLE 24--HOUSING AND URBAN DEVELOPMENT

PART 58--ENVIRONMENTAL REVIEW PROCEDURES FOR ENTITIES ASSUMING HUD ENVIRONMENTAL RESPONSIBILITIES--Table of Contents

Subpart D--Environmental Review Process: Documentation, Range of Activities, Project Aggregation and Classification

Sec. 58.35 Categorical exclusions.

Categorical exclusion refers to a category of activities for which no environmental impact statement or environmental assessment and finding of no significant impact under NEPA is required, except in extraordinary circumstances (see Sec. 58.2(a)(3)) in which a normally excluded activity may have a significant impact. Compliance with the other applicable Federal environmental laws and authorities listed in Sec. 58.5 is required for any categorical exclusion listed in paragraph (a) of this section.

- a. Categorical exclusions subject to Sec. 58.5. The following activities are categorically excluded under NEPA, but may be subject to review under authorities listed in Sec. 58.5:
 1. Acquisition, repair, improvement, reconstruction, or rehabilitation of public facilities and improvements (other than buildings) when the facilities and improvements are in place and will be retained in the same use without change in size or capacity of more than 20 percent (e.g., replacement of water or sewer lines, reconstruction of curbs and sidewalks, repaving of streets).
 2. Special projects directed to the removal of material and architectural barriers that restrict the mobility of and accessibility to elderly and handicapped persons.
 3. Rehabilitation of buildings and improvements when the following conditions are met:
 - i. In the case of a building for residential use (with one to four units), the density is not increased beyond four units, the land use is not changed, and the footprint of the building is not increased in a floodplain or in a wetland;
 - ii. In the case of multifamily residential buildings:
 - A. Unit density is not changed more than 20 percent;
 - B. The project does not involve changes in land use from residential to non-residential; and
 - C. The estimated cost of rehabilitation is less than 75 percent of the total estimated cost of replacement after rehabilitation.

- iii. In the case of non-residential structures, including commercial, industrial, and public buildings:
 - A. The facilities and improvements are in place and will not be changed in size or capacity by more than 20 percent; and
 - B. The activity does not involve a change in land use, such as from non-residential to residential, commercial to industrial, or from one industrial use to another.

 - 4.
 - i. An individual action on up to four dwelling units where there is a maximum of four units on any one site. The units can be four one-unit buildings or one four-unit building or any combination in between; or
 - ii. An individual action on a project of five or more housing units developed on scattered sites when the sites are more than 2,000 feet apart and there are not more than four housing units on any one site.
 - iii. Paragraphs (a)(4)(i) and (ii) of this section do not apply to rehabilitation of a building for residential use (with one to four units) (see paragraph (a)(3)(i) of this section).

 - 5. Acquisition (including leasing) or disposition of, or equity loans on an existing structure, or acquisition (including leasing) of vacant land provided that the structure or land acquired, financed, or disposed of will be retained for the same use.

 - 6. Combinations of the above activities.
- b. Categorical exclusions not subject to Sec. 58.5. The Department has determined that the following categorically excluded activities would not alter any conditions that would require a review or compliance determination under the Federal laws and authorities cited in Sec. 58.5. When the following kinds of activities are undertaken, the responsible entity does not have to publish a NOI/RROF or execute a certification and the recipient does not have to submit a RROF to HUD (or the State) except in the circumstances described in paragraph (c) of this section. Following the award of the assistance, no further approval from HUD or the State will be needed with respect to environmental requirements, except where paragraph (c) of this section applies. The recipient remains responsible for carrying out any applicable requirements under Sec. 58.6.
- 1. Tenant-based rental assistance;
 - 2. Supportive services including, but not limited to, health care, housing services, permanent housing placement, day care, nutritional services, short-term payments for rent/mortgage/utility costs, and assistance in

gaining access to local, State, and Federal government benefits and services;

3. Operating costs including maintenance, security, operation, utilities, furnishings, equipment, supplies, staff training and recruitment and other incidental costs;
 4. Economic development activities, including but not limited to, equipment purchase, inventory financing, interest subsidy, operating expenses and similar costs not associated with construction or expansion of existing operations;
 5. Activities to assist homebuyers to purchase existing dwelling units or dwelling units under construction, including closing costs and down payment assistance, interest buydowns, and similar activities that result in the transfer of title.
 6. Affordable housing pre-development costs including legal, consulting, developer and other costs related to obtaining site options, project financing, administrative costs and fees for loan commitments, zoning approvals, and other related activities which do not have a physical impact.
 7. Approval of supplemental assistance (including insurance or guarantee) to a project previously approved under this part, if the approval is made by the same responsible entity that conducted the environmental review on the original project and re-evaluation of the environmental findings is not required under Sec. 58.47.
- c. Circumstances requiring NEPA review. If a responsible entity determines that an activity or project identified in paragraph (a) or (b) of this section, because of extraordinary circumstances and conditions at or affecting the location of the activity or project, may have a significant environmental effect, it shall comply with all the requirements of this part.
- d. The Environmental Review Record (ERR) must contain a well organized written record of the process and determinations made under this section.

Subpart D--Environmental Review Process: Documentation, Range of Activities, Project Aggregation and Classification

Sec. 58.37 Environmental impact statement determinations.

- a. An EIS is required when the project is determined to have a potentially significant impact on the human environment.
- b. An EIS is required under any of the following circumstances, except as provided in paragraph (c) of this section:
 1. The project would provide a site or sites for, or result in the construction of, hospitals or nursing homes containing a total of 2,500 or more beds.
 2. The project would remove, demolish, convert or substantially rehabilitate 2,500 or more existing housing units (but not including rehabilitation projects categorically excluded under Sec. 58.35), or would result in the construction or installation of 2,500 or more housing units, or would provide sites for 2,500 or more housing units.
 3. The project would provide enough additional water and sewer capacity to support 2,500 or more additional housing units. The project does not have to be specifically intended for residential use nor does it have to be totally new construction. If the project is designed to provide upgraded service to existing development as well as to serve new development, only that portion of the increased capacity which is intended to serve new development should be counted.
- c. If, on the basis of an EA, a responsible entity determines that the thresholds in paragraph (b) of this section are the sole reason for the EIS, the responsible entity may prepare a FONSI pursuant to 40 CFR 1501.4. In such cases, the FONSI must be made available for public review for at least 30 days before the responsible entity makes the final determination whether to prepare an EIS.
- d. Notwithstanding paragraphs (a) through (c) of this section, an EIS is not required where Sec. 58.53 is applicable.
- e. Recommended EIS Format. The responsible entity must use the EIS format recommended by the CEQ regulations (40 CFR 1502.10) unless a determination is made on a particular project that there is a compelling reason to do otherwise. In such a case, the EIS format must meet the minimum requirements prescribed in 40 CFR 1502.10.

This document will be designated the "Environmental Review Record" (ERR), and shall be available for public review. The responsible entity must use the current HUD-recommended formats or develop equivalent formats.

- a. ERR Documents. The ERR shall contain all the environmental review documents, public notices and written determinations or environmental findings required by this part as evidence of review, decision making and actions pertaining to a particular project of a recipient. The document shall:
 1. Describe the project and the activities that the recipient has determined to be part of the project;
 2. Evaluate the effects of the project or the activities on the human environment;
 3. Document compliance with applicable statutes and authorities, in particular those cited in Sec. 58.5 and 58.6; and
 4. Record the written determinations and other review findings required by this part (e.g., exempt and categorically excluded projects determinations, findings of no significant impact).

- b. Other documents and information. The ERR shall also contain verifiable source documents and relevant base data used or cited in EAs, EISs or other project review documents. These documents may be incorporated by reference into the ERR provided that each source document is identified and available for inspection by interested parties. Proprietary material and special studies prepared for the recipient that are not otherwise generally available for public review shall not be incorporated by reference but shall be included in the ERR.

Subpart E--Environmental Review Process: Environmental Assessments (EA's)

Sec. 58.40 Preparing the environmental assessment.

The responsible entity may prepare the EA using the HUD recommended format. In preparing an EA for a particular project, the responsible entity must:

- a. Determine existing conditions and describe the character, features and resources of the project area and its surroundings; identify the trends that are likely to continue in the absence of the project.
- b. Identify all potential environmental impacts, whether beneficial or adverse, and the conditions that would change as a result of the project.
- c. Identify, analyze and evaluate all impacts to determine the significance of their effects on the human environment and whether the project will require further compliance under related laws and authorities cited in Sec. 58.5 and Sec. 58.6.
- d. Examine and recommend feasible ways in which the project or external factors relating to the project could be modified in order to eliminate or minimize adverse environmental impacts.
- e. Examine alternatives to the project itself, if appropriate, including the alternative of no action.
- f. Complete all environmental review requirements necessary for the project's compliance with applicable authorities cited in Secs. 58.5 and 58.6.
- g. Based on steps set forth in paragraph (a) through (f) of this section, make one of the following findings:
 1. A Finding of No Significant Impact (FONSI), in which the responsible entity determines that the project is not an action that will result in a significant impact on the quality of the human environment. The responsible entity may then proceed to Sec. 58.43.
 2. A finding of significant impact, in which the project is deemed to be an action which may significantly affect the quality of the human environment. The responsible entity must then proceed with its environmental review under subpart F or G of this part.

Subpart E--Environmental Review Process: Environmental Assessments (EA's)

Sec. 58.43 Dissemination and/or publication of the findings of no significant impact.

- a. If the responsible entity makes a finding of no significant impact, it must prepare a FONSI notice, using the current HUD-recommended format or an equivalent format. As a minimum, the responsible entity must send the FONSI notice to individuals and groups known to be interested in the activities, to the local news media, to the appropriate tribal, local, State and Federal agencies; to the Regional Offices of the Environmental Protection Agency having jurisdiction and to the HUD Field Office (or the State where applicable). The responsible entity may also publish the FONSI notice in a newspaper of general circulation in the affected community. If the notice is not published, it must also be prominently displayed in public buildings, such as the local Post Office and within the project area or in accordance with procedures established as part of the citizen participation process.
- b. The responsible entity may disseminate or publish a FONSI notice at the same time it disseminates or publishes the NOI/RROF required by Sec. 58.70. If the notices are released as a combined notice, the combined notice shall:
 1. Clearly indicate that it is intended to meet two separate procedural requirements; and
 2. Advise the public to specify in their comments which "notice" their comments address.
- c. The responsible entity must consider the comments and make modifications, if appropriate, in response to the comments, before it completes its environmental certification and before the recipient submits its RROF. If funds will be used in Presidentially declared disaster areas, modifications resulting from public comment, if appropriate, must be made before proceeding with the expenditure of funds.

- c. The project is unique and without precedent.

Sec. 58.47 Re-evaluation of environmental assessments and other environmental findings.

- a. A responsible entity must re-evaluate its environmental findings to determine if the original findings are still valid, when:
 1. The recipient proposes substantial changes in the nature, magnitude or extent of the project, including adding new activities not anticipated in the original scope of the project;
 2. There are new circumstances and environmental conditions which may affect the project or have a bearing on its impact, such as concealed or unexpected conditions discovered during the implementation of the project or activity which is proposed to be continued; or
 3. The recipient proposes the selection of an alternative not in the original finding.

- b.
 1. If the original findings are still valid but the data or conditions upon which they were based have changed, the responsible entity must affirm the original findings and update its ERR by including this re-evaluation and its determination based on its findings. Under these circumstances, if a FONSI notice has already been published, no further publication of a FONSI notice is required.
 2. If the responsible entity determines that the original findings are no longer valid, it must prepare an EA or an EIS if its evaluation indicates potentially significant impacts.
 3. Where the recipient is not the responsible entity, the recipient must inform the responsible entity promptly of any proposed substantial changes under paragraph (a)(1) of this section, new circumstances or environmental conditions under paragraph (a)(2) of this section, or any proposals to select a different alternative under paragraph (a)(3) of this section, and must then permit the responsible entity to re-evaluate the findings before proceeding.

An adopted EIS may have to be revised and modified to adapt it to the particular environmental conditions and circumstances of the project if these are different from the project reviewed in the EIS. In such cases the responsible entity must prepare, circulate, and file a supplemental draft EIS in the manner prescribed in Sec. 58.60(d) and otherwise comply with the clearance and time requirements of the EIS process, except that scoping requirements under 40 CFR 1501.7 shall not apply. The agency that prepared the original EIS should be informed that the responsible entity intends to amend and adopt the EIS. The responsible entity may adopt an EIS when it acts as a cooperating agency in its preparation under 40 CFR 1506.3. The responsible entity is not required to re-circulate or file the EIS, but must complete the clearance process for the RROF. The decision to adopt an EIS shall be made a part of the project ERR.

- a. The ERR contains a decision based on a finding pursuant to Sec. 58.40 that the proposed project is not a new major Federal action significantly affecting the quality of the human environment. The decision shall include:
 1. References to the prior EIS and its evaluation of the environmental factors affecting the proposed subsequent action subject to NEPA;
 2. An evaluation of any environmental factors which may not have been previously assessed, or which may have significantly changed;
 3. An analysis showing that the proposed project is consistent with the location, use, and density assumptions for the site and with the timing and capacity of the circulation, utility, and other supporting infrastructure assumptions in the prior EIS;
 4. Documentation showing that where the previous EIS called for mitigating measures or other corrective action, these are completed to the extent reasonable given the current state of development.

- b. The prior final EIS has been filed within five (5) years, and updated as follows:
 1. The EIS has been updated to reflect any significant revisions made to the assumptions under which the original EIS was prepared;
 2. The EIS has been updated to reflect new environmental issues and data or legislation and implementing regulations which may have significant environmental impact on the project area covered by the prior EIS.

- c. There is no litigation pending in connection with the prior EIS, and no final judicial finding of inadequacy of the prior EIS has been made.

Subpart H--Release of Funds for Particular Projects

Sec. 58.71 Request for release of funds and certification.

- a. The RROF and certification shall be sent to the appropriate HUD Field Office (or the State, if applicable), except as provided in paragraph (b) of this section. This request shall be executed by the Certifying Officer. The request shall describe the specific project and activities covered by the request and contain the certification required under the applicable statute cited in Sec. 58.1(b). The RROF and certification must be in a form specified by HUD.
- b. When the responsible entity is conducting an environmental review on behalf of a recipient, as provided for in Sec. 58.10, the recipient must provide the responsible entity with all available project and environmental information and refrain from undertaking any physical activities or choice limiting actions until HUD (or the State, if applicable) has approved its request for release of funds. The certification form executed by the responsible entity's certifying officer shall be sent to the recipient that is to receive the assistance along with a description of any special environmental conditions that must be adhered to in carrying out the project. The recipient is to submit the RROF and the certification of the responsible entity to HUD (or the State, if applicable) requesting the release of funds. The recipient must agree to abide by the special conditions, procedures and requirements of the environmental review, and to advise the responsible entity of any proposed change in the scope of the project or any change in environmental conditions.

Sec. 58.72 HUD or State actions on RROFs and certifications.

The actions which HUD (or a State) may take with respect to a recipient's environmental certification and RROF are as follows:

- a. In the absence of any receipt of objection to the contrary, except as provided in paragraph (b) of this section, HUD (or the State) will assume the validity of the certification and RROF and will approve these documents after expiration of the 15-day period prescribed by statute.
- b. HUD (or the state) may disapprove a certification and RROF if it has knowledge that the responsible entity or other participants in the development process have not complied with the items in Sec. 58.75, or that the RROF and certification are inaccurate.
- c. In cases in which HUD has approved a certification and RROF but subsequently learns (e.g., through monitoring) that the recipient violated Sec. 58.22 or the recipient or responsible entity otherwise failed to comply with a clearly applicable environmental authority, HUD shall impose appropriate remedies and sanctions in accord with the law and regulations for the program under which the violation was found.

PART 58--ENVIRONMENTAL REVIEW PROCEDURES FOR ENTITIES ASSUMING HUD ENVIRONMENTAL RESPONSIBILITIES--Table of Contents

Subpart H--Release of Funds for Particular Projects

Sec. 58.75 Permissible bases for objections.

HUD (or the State), will consider objections claiming a responsible entity's noncompliance with this part based only on any of the following grounds:

- a. The certification was not in fact executed by the responsible entity's Certifying Officer.
- b. The responsible entity has failed to make one of the two findings pursuant to Sec. 58.40 or to make the written determination required by Secs. 58.35, 58.47 or 58.53 for the project, as applicable.
- c. The responsible entity has omitted one or more of the steps set forth at subpart E of this part for the preparation, publication and completion of an EA.
- d. The responsible entity has omitted one or more of the steps set forth at subparts F and G of this part for the conduct, preparation, publication and completion of an EIS.
- e. The recipient or other participants in the development process have committed funds, incurred costs or undertaken activities not authorized by this part before release of funds and approval of the environmental certification by HUD (or the state).
- f. Another Federal agency acting pursuant to 40 CFR part 1504 has submitted a written finding that the project is unsatisfactory from the standpoint of environmental quality.

TITLE 24--HOUSING AND URBAN DEVELOPMENT

PART 58--ENVIRONMENTAL REVIEW PROCEDURES FOR ENTITIES ASSUMING HUD ENVIRONMENTAL RESPONSIBILITIES--Table of Contents

Subpart H--Release of Funds for Particular Projects

Sec. 58.77 Effect of approval of certification.

- a. Responsibilities of HUD and States. HUD's (or, where applicable, the State's) approval of the certification shall be deemed to satisfy the responsibilities of the Secretary under NEPA and related provisions of law cited at Sec. 58.5 insofar as those responsibilities relate to the release of funds as authorized by the applicable provisions of law cited in Sec. 58.1(b).
- b. Public and agency redress. Persons and agencies seeking redress in relation to environmental reviews covered by an approved certification shall deal with the responsible entity and not with HUD. It is HUD's policy to refer all inquiries and complaints to the responsible entity and its Certifying Officer. Similarly, the State (where applicable) may direct persons and agencies seeking redress in relation to environmental reviews covered by an approved certification to deal with the responsible entity, and not the State, and may refer inquiries and complaints to the responsible entity and its Certifying Officer. Remedies for noncompliance are set forth in program regulations.
- c. Implementation of environmental review decisions. Projects of a recipient will require post-review monitoring and other inspection and enforcement actions by the recipient and the State or HUD (using procedures provided for in program regulations) to assure that decisions adopted through the environmental review process are carried out during project development and implementation.
- d. Responsibility for monitoring and training.
 1. At least once every three years, HUD intends to conduct in-depth monitoring and exercise quality control (through training and consultation) over the environmental activities performed by responsible entities under this part. Limited monitoring of these environmental activities will be conducted during each program monitoring site visit. If through limited or in-depth monitoring of these environmental activities or by other means, HUD becomes aware of any environmental deficiencies, HUD may take one or more of the following actions:
 - i. In the case of problems found during limited monitoring, HUD may schedule in-depth monitoring at an earlier date or may schedule in-depth monitoring more frequently;
 - ii. HUD may require attendance by staff of the responsible entity at HUD-sponsored or approved training, which will be provided periodically at various locations around the country;
 - iii. HUD may refuse to accept the certifications of environmental compliance on subsequent grants;

- iv. HUD may suspend or terminate the responsible entity's assumption of the environmental review responsibility;
 - v. HUD may initiate sanctions, corrective actions, or other remedies specified in program regulations or agreements or contracts with the recipient.
2. HUD's responsibilities and action under paragraph (d)(1) of this section shall not be construed to limit or reduce any responsibility assumed by a responsible entity with respect to any particular release of funds under this part. Whether or not HUD takes action under paragraph (d)(1) of this section, the Certifying Officer remains the responsible Federal official under Sec. 58.13 with respect to projects and activities for which the Certifying Officer has submitted a certification under this part.
